Final "Must" Measures Of Earle Administration Being Forced Through

SESSION MAY END DURING NIGHT

Only Three Phases Of Mandate Program Are Awaiting Final Action

By FREDERICK N. POLANGIN
International News Service Staff Correspondent

HARRISBURG, June 4.—The last pages of a history-making session of the general assembly were being written today as the overwhelmingly Democratic majority prepared to complete Gov. George H. Earle's "mandate" program and adjourn sine die.

Final adjournment has been set for today but indications were that printing delays and probably last minute conferences would delay this until some time tomorrow following an all-night session.

Three Phases Await Action.

But three important phases on the "must" agenda remain to be enacted—relief and public assistance, liquor and the proposed police merger—and the Democratic majority, driven together once again by a determined Earle administration, was in virtual accord over the issues.

The governor's proposal to consolidate administration of relief and public assistance by abolishing the

Duke And Bride Are On Honeymoon

(BULLETIN)

(Copyright, 1937, by International News Service)

VENICE, June 4. — The second day of their married life today found the Duke and Duchess of Windsor touring the romantic canals of Venice—but not in a gondola. They used a motor launch.

It remained uncertain whether, as some reports said, they would remain here for the first part of their honeymoon or take the 6:30 o'clock train for Austria.

ABOARD SIMPLON EXPRESS, ENROUTE TO AUSTRIA, June 4.—In a rose-garlanded private car, the Duke and Duchess of Windsor sped across Europe today toward their honeymoon retreat in Austria and the martial privacy they longed for since the duke abandoned his British throne.

Wedded in a double ceremony—one civil and one religious—at the Chateau de Cande yesterday, the duke carried with him the good wishes of his royal family, despite the fact none of its members attended his wedding.

Through the torrid night the train roared across France toward Arnoldstein, situated in South Austria near the Judoslavian border, where the duke and duchess may alight to continue their journey by motor to Old Wasserleonburg castle in the Carinthian mountains.

Although this was expected to be their procedure, it was not definitely certain exactly where they would detrain. There was a possibility they would detrain in Jugoslavia and motor across the border to the ancient castle.

Murray meanwhile reinforced his uncompromising demand for contracts with Republic Steel Corporation, Youngstown Sheet and Tube Company and Inland Steel Corporation whose 80,000 workers are idle by ordering an organization campaign of workers in the great ore fields from whence the companies receive their raw materials.

Election Laws Revision Bill Signed By Earle

First Change For Election Laws In Pennsylvania For Almost Century

FILING FEES SET FOR CANDIDATES

Numerous Changes Are Also Made In Election Procedure By Law

(International News Service)

HARRISBURG, June 4—Pennsylvania's first revision of election laws in almost a century was in effect today.

Sponsored by Rep. Samuel A. Weiss, D., Allegheny, the code was signed by Gov. George H. Earle late yesterday.

The Earle administration hailed the enactment of the code as a definite step toward the avoidance of costly litigation arising out of party exemptions by placing a virtual ban on so-called "ghost" parties.

Set Filing Fee

Candidates for all elections are, under the act, required to make an affidavit testifying they were registered and enrolled members of the party on which ticket they seek nomination.

The act further sets a filing fee, varying as to the type of office, for candidates, to show "good faith."

The fees are: president and all state-wide offices, $50;; representatives in congress and all judges of courts of record, except state-wide judges and associate judges, $35; senators and representatives in the state legislature all county and city wide offices, $25; associate judges, borough, town, township, school district, poor district offices, except if the respective offices do not allow compensations, $20.00; election officers, $.50; national convention and state committee delegates, $10; other party offices, $.50; alderman, justice of the peace, constable, $2; township auditors and road supervisors, $1.

Preemption Abolished

Nomination petitions are required to be filed within 20 days before the primary. The use of preemption was abolished.

Independent political bodies are required to form within a period of 30 days, and each nomination petition must be accompanied by a $5 filing fee.

The code requires polls to be open from 7 a. m. to 9 p. m. and advances the fall primary one week, giving election officers additional time to prepare for the November elections. The fall primary date will be the second instead of the third Tuesday in September.

Parking Meters Contract Is Let

Expect Installation To Be Underway Within Next Three Weeks

HOUR PARKING WILL BE PROVIDED

Parking meters will become a reality here within the next three weeks according to council's action late Thursday afternoon which resulted in the city awarding a contract to the Municipal Equipment company of which J. R. Rick is the representative, for the installation of 500 or more Mark-time meters for a six months, or less trial.

According to the recommendation, placed in the form of a motion, presented by Councilman J. M. Rice, and adopted unanimously, the company will install the meters. The city will receive 15 percent and the company 85 percent of the receipts until the cost of each meter, $58.00 is paid to the company after which the meters become city property.

According to council they witnessed a demonstration of various parking meters during an all day session yesterday and arrived at the decision that the Mark Time meter would be the best meter to adopt for the city and suited their action to this opinion.

One Hour Parking

The meters which will be installed on trial are about four feet high. They are neat in appearance. The face of the meter shows when a car is parked legally and when a car is parked over-time. It is proposed to permit one hour's parking for five cents on thoroughfares designated by council. According to council

General Mola's Death Hard Blow To Rebel Cause

Victim Of Airplane Crash Was Directing Drive On Bilbao

DEATH CAUSES SOME CONSTERNATION

(International News Service)

SALAMANCA, Spain, June 4. Business was at a standstill in the rebel stronghold of Salamanca today following the death of Rebel General Emilio Mola in an airplane crash.

Consternation over his death was wide-spread, since his loss was conceded a heavy blow to the rebel cause. His successes in northern Spain, particularly in the earlier months of the war when he led the rebel troops that took Irun and San Sebastian in terrific fighting, made him one of the most important commanders in the rebel cause.

It was believed here he may be succeeded as commander of the insurgent forces in the north by General Millan Astray, but this was not confirmed. Whoever does succeed him will have to carry on his campaign on the Biscay front, aimed at capture of the Basque capital, Bilbao.

President Still Criticizes Court

Assails Supreme Court For Taking Summer Recess Without Decisions

(International News Service)

WASHINGTON, June 4.—Again emphasizing his determination to press for a showdown on court reorganization at this session of congress, President Roosevelt today criticized the supreme court for taking in four months summer recess without having handed down important decisions in the TVA, PWA and SEC cases.

The president pointed out that the court could, if it desired, sit in the summer for a special term.

The public is most anxious, he said, for decisions in the cases still pending but it now appears a delay of anywhere from six months to more than a year is in prospect.

Discussing the situation generally at his press conference, Mr. Roosevelt declined to be drawn into a discussion of compromises or amendments. He said he was looking at the forest, not at the trees.

Carbon Monoxide Gas Saves 63 As Ship Takes Fire

(International News Service)

CRISTOBAL, C. Z., June 4.—Death-dealing carbon monoxide gas today saved 63 men aboard the United States Transport Ludington from possible disaster when a fire broke out in her No. 5 hold, near where 690 tons of explosives were stored.

The blazing hold was flooded with carbon monoxide, the gas best known as the exhaust from gasoline motors, and the fire was suffocated sufficiently to be kept under control.

Capt. Humphreys advised the commanding general of the Canal zone that the transport would safely make Cristobal Sunday morning.

The transport left New York with explosives for American bases in the Canal zone a week ago, and the fire was discovered yesterday.

Hirsch Executed Under Headsman's Axe In Germany

Clemency Appeals For Son Of One Time Lawrence County Man Are Refused

TREASON CHARGE MADE IN BERLIN

Hirsch's Father Was Naturalized Here About Quarter Of Century Ago

(BULLETIN)

(International News Service)

BERLIN, June 4.—Helmut Hirsch, 21-year-old German-Jewish American citizen and art student, was executed under the Nazi headsman's axe today.

His execution, revealed in a terse official announcement, was carried out after an appeal to Chancellor Hitler for clemency had failed.

Urgent 11th hour pleas by United States Ambassador William Dodd, who asked that the sentence be commuted as a "gesture" towards the United States, were also turned down.

Leniency Refused

Dodd, it was understood, argued that Hirsch may have conspired, but there was no actual attack on Hitler or any other high Nazi official, and that the sentence as imposed by the court was more severe than usually ordered in other countries.

Hirsch, son of a one-time naturalized American whose long absence from the United States had expatriated him, was convicted of high treason by the people's court of Berlin. It was charged that high explosives were found in his possession.

Public announcement of the execution was advertised in crimson colored posters and placards which were pasted up all over Berlin on advertising pillars.

Youth "Axed"

After stating the youth had been "axed," the statement added:

"Hirsch was sentenced to death March 3. He was convicted of violation of the law relating to explo-

Italy Balks At British-French Peace Attempts

(International News Service)

ROME, June 4.—Italy balked today at urgent British and French attempts to bring her back into the Spanish non-intervention scheme.

Authoritative quarters indicated that the modified naval patrol scheme, designed to prevent reoccurrence of Loyalist attacks on foreign ships, was not acceptable in its present form. Italy believes that guarantees of security for her ships are insufficient.

Instead, Italy drew closer to Germany with a veritable military understanding regarding Spain after Reich War Minister Werner Von Blomberg dined with Premier Mussolini.

RUMOR COURT COMPROMISE

President May Alter His Views

Robinson Continues To Appear As Likely Appointee For Supreme Court

REPORT SUTHERLAND MAY ALSO RETIRE

By GEORGE DURNO
International News Service Staff Correspondent

WASHINGTON, June 4.—Widespread reports that the White House might accept a compromise of some sort of the supreme court reorganization bill had a perspiring congress listening attently today for further word from President Roosevelt himself.

There were rumors the president might be disposed to agree to a senate amendment limiting the chief executive to one or two appointments to the supreme court in any given year—still insisting, however, on his potential right to name up to six new justices in all.

Robinson May Be Judge

Senate majority leader Robinson (D) of Arkansas, announced flatly on the front steps of the White House last night after a two-hour conference with Mr. Roosevelt that the administration had not abandoned its "court reform" fight and expected a show-down vote at this session.

Senator Robinson's stock as a possible nominee to the supreme court succeeding the retired Justice Willis Van Devanter rated higher than ever today in Washington political circles as a result of this night session in the oval room.

"During the last few months, some changes have occurred which have modified the situation," Robinson declared in measured tones, "but there still exists a necessity for injection of new blood into the court."

Reports that Justice Sutherland was about to take advantage of the new bill permitting retirement on full pay after 70 gave rise to speculation President Roosevelt might demand the privilege of two appointments in any given year.

train eight minutes after midnight at La Roche, small French town to which they motored the 150 miles from the Chateau de Cande at Monts, where they were married yesterday.

Arriving at the La Roche station just before the train pulled away, the duke and duchess hurriedly boarded their car. A cheering crowd of spectators saw them off.

The couple were radiantly happy as they got on the train, especially because of the good wishes of the duke's family, telephoned from London to him just before he and his bride left the Chateau de Cande.

King George, to whom the duke passed his royal scepter when he abdicated for the sake of "the woman I love," expressed his heartiest congratulations. So did Queen Elizabeth.

And the duke's mother, 70-year-old Queen Mother Mary, gave the duke her blessing. She told him:

"I want you to know how glad I am because you are now so happy."

May Go To Venice

Aboard Simplon Express, June 4—Believed to have changed their destination from Austria to Venice, the Duke and Duchess of Windsor sped through the Italian Lake district today in a rose-garlanded private car.

"Awfully glad to be here" said the Duke upon his arrival at Milan where a large crowd appeared outside the ducal window applauding the couple and begging them to appear.

The newlyweds had breakfast in their compartment at 10:15 at Stresa on Lake Maggiore—scene two years ago of a historic international conference after Germany announced her rearmament plans.

They rose at 10:45 and at every station the detectives who guarded them closely had to keep away little knots of country folk who gathered to wish the couple well.

Their breakfast consisted of croissons, French crescent-shaped rolls, butter, bacon and tea.

French detectives who had accompanied them through France left the train at the first station, Domodossola, in Italy, and were replaced by Italians. More detectives reinforced guards at every station.

When they left the scene of their wedding, Chateau De Cande, at Monts, France yesterday, it was understood that they were proceeding by motor and train to Arnoldstein, South Austria, thence to Castle Wasserleonburg in Carinthia for the first part of their honeymoon.

But today there were indications that they would stop when the express reaches Venice and sojourn there for a couple of weeks.

Suspension Is Lifted On 'Dizzy' Dean

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, June 4.—After a series of heated arguments, the suspension of Dizzy Dean, star pitcher of the St. Louis Cardinals, was formally and officially lifted by President Ford Frick of the National league today.

The action by the league president came only after Dean had walked out on one meeting with Frick and talked his way out of a proffered reinstatement on another occasion. Finally, however, the pitcher won the fight.

He did not sign the repudiation of statements credited to him in a Belleville, Ill., newspaper to the effect that "Frick and Umpire Barr are two of the biggest crooks in baseball." And he did get himself returned to good standing within 24 hours purely on the strength of his "oral explanation".

poor board system, setting up a new state department to operate through county board, was to be passed finally in the house today.

Already approved by the senate, the seven measures to carry out this revolutionary program at an estimated two-year cost of $137,000,000 were expected to land in conference committee following house passage.

The house early today ripped out a provision in one of the three liquor bills permitting package sales. This, along with an amendment giving orders of the liquor control board the force of law, was to occasion the late conference committee consideration.

Police Merger Measure.

The bills to marge the state police and highway patrol were amended to make the change effective the moment Gov. George H. Earle affixes his signature to the measures.

A floor fight in the house was expected on each of the three remaining issues but the Earle administration was assured of sufficient votes to push them through.

Also awaiting final action was the Frey 44-hour week bill, applying to all wage-earners except executives, agricultural workers and dimestics. The bill was amended to give an anticipated federal law on the same subjebt precedence.

Sent to the governor's desk early today were two "modernized" codifications of the election and game laws, the Horting bill ear-marking proceeds of the enacted $3,500,000 chain store tax for use of fourth-class school districts, and the senate reapportionment bill.

All superficial evidence of Democratic revolts over the governor's program have disappeared as if by a sleight-of-hand of the party high command.

OHIO GOVERNOR SEEKS SETTLEMENT FOR STEEL STRIKE

(Continued From Page One)

lic, strongest and most militant of the holdout companies, Murray added the threat of a strike in its Western Pennsylvania coal mines.

"I'm not going to settle this strike until Tom M. Girdler signs an agreement," he asserted.

Republic issued a statement declining "any challenge to settle an industrial dispute by force of arms." It contended more than 21,000 of its employes were working but Murray charged this was "grossly exaggerated."

Republic also announced a $1,000 reward for arrest and conviction of persons sniping at its planes which have been carrying food supplies into the besieged plants. CIO leaders announced picket lines will be thrown around the little-used Great Lakes Airport at Cleveland which Republic rented.

Governor Davey's conference with Murray was scheduled after secret parleys at the executive mansion with Girdler and S. C. Argetsinger, vice president of Sheet and Tube.

Girdler, the 60-year-old pipe smoking chairman of the board of Republic, was singled out as a target by Murray at a mass meeting at Warren last night.

PARKING METERS CONTRACT IS LET

(Continued From Page One)

an auto may be parked for only one hour in a certain spot. After this period, the car must be moved.

Acording to Mayor Charles E. McGrath, installation will be started within the next three weeks. He believes the trial will prove beneficial to traffic. The mayor believes that the public will recognize this and that meters will prevent persons from leaving their cars parked for hours at a time in any one spot.

Glenn R. Throop, city engineer, has prepared a blueprint showing spots where meters may be placed. Twenty feet will be allotted each car parked parallel and 10 feet when parked diagonal.

All one need to do is drive into an empty space, insert a nickel in the meter, turn a handle and the meter, a clock-like arrangement, begins clicking. When a car is parked over time, the arrow drops into a red block.

Should an officer watching the meters discover a car parked overtime he will give a tag for illegal parking.

Stakes Life On Card Game, Loses, Commits Suicide

(International News Service)

PITTSBURGH, June 4—A penniless old man staked his life on a card game—and lost.

Peter Nesovich, 72, of Forward township, found hanging from a limb of an apple tree, was to have been taken to the county home at Woodville. Before the time to go, he sat down with three friends to play a farewell game of five hundred, officials from the coroners office said today.

"If I don't win this game, I'll never go to Woodville," he is reported to have said. He didn't win.

sives. He came to Germany on behalf of circles abroad, plotting high treason for the purpose of committing explosive crimes."

Douglas Jenkins, United States consul general, asked to be present when Hirsch was informed of his doom. After waiting half an hour at the prison, Jenkins was advised Hirsch had received the news calmly and had not requested the presence of American officials.

Father Lived Near New Castle

Hirsch was born in 1916 at Stuttgart in Wuerttemberg, Germany.

After Hitler came to power, he and his family emigrated to Prague, where he studied architecture. On December 20, 1936, the youth suddenly left Prague secretly and without telling his parents. They never heard of him again until they heard a radio announcement of his death sentence.

Siegfried Hirsch, Helmut's father, lives near Prague with his wife and daughter. The elder Hirsch, an engineer, was born in Bohemia, now part of Czechoslovakia, as the son of a United States citizen, and between 1902 and 1910 he lived near New Castle, Pa., where he acquired the American citizenship. Previously he had served a short time in the Austrian army.

Left United States

Later Siegfried Hirsch left the United States, lived in Lorraine and finally returned to Stuttgart. He lost his American citizenship and obtained "Alien passports" for himself and his family. He is now trying to regain citizenship in the United States.

Helmut's father and mother in Prague have both claimed, despite conviction of their son, that he had nothing to do with politics and was interested only in his art. They said they believed he left suddenly for Germany to celebrate the birthday of a friend.

The event took place at a prominent tea room downtown, and was in the form of a kitchen shower, each guest of honor receiving identical gifts cleverly wrapped in large uniform packages. The presentation was made when the evening was at its peak, taking both brides-to-be by complete surprise.

A. B. D. GIRLS HONOR MRS. J. N. MARTIN

Honoring Mrs. J. Norman Martin, who has been their leader for the past 25 years, A. B. D. Girls held a dinner party Thursday evening in The Castleton.

At long tables in the form of a T, covers were arranged for 35 guests, including Mrs. Harold S. Pyle of Sharon, formerly of this city. Decorations were carried out in pink peonies and glowing ivory tapers in triple candelabra.

Dainty folders brightened with tulips, marked the places and on these were humorous verses which were read during the serving of an elegant menu.

Mrs. Anne Wagner presided graciously as chairman for the evening, providing a delightful program. Answering clever conundrums which she asked, the girls gave the correct answers by naming different members of the First Presbyterian church.

The highlight was the presentation to Mrs. Martin of a beautiful silver bowl engraved with "A. B. D. —1912-1937", as a token of the high esteem in which she is held by the girls, and appreciation for her most faithful and untiring service thru the years.

Making the presentation, Mrs. Arthur B. Foster, the president, reviewed the history of the A. B. D. Girls, recalling that the group was organized about 30 or 35 years ago by the late Mrs. Ada Barker Donnan, another of New Castle's beloved residents. It was the outgrowth of her former Sunday school class at the First Presbyterian church which numbered at that time around 15.

In successive years, many of the original group have married and moved out of town and three have passed on, but of the charter members four were present last night, Mrs. Anne Wagner, Miss Jess Wilson, Miss Eleanor Anderson and Mrs. John A. Edgar, the former three forming the dinner committee.

Mrs. Martin contributed to the program by reading a history she has compiled of the First Presbyterian church since its organization back in 1801. The Presbyterian church was the first church in New Castle, having had the first meetings 136 years ago on Grant street which was then a woods. History denoted rapid progress through the years until the property on which the present church now stands at the corner of North Jefferson and Falls streets, was purchased and now has a membership of around 700 or 800. As many as seven generations down to the present time have been staunch leaders through the passing years.

PLEASANT EVENING FOR CHEERIO CLUB

A most pleasant evening's entertainment was provided members of the Cheerio club by Mrs. Kenneth McDonald of East Washington street.

During the usual business period a breakfast was planned for June 10 at Cascade park. Games then furnished amusement with Mrs. William Burdette and Mrs. Edward Kelly being fortunate in securing the prizes.

Refreshments were served at a nicely arranged table centered with garden flowers. An invitation was extended from Mrs. Edward Kelly for the next regular meeting, Thursday, June 17, at her home on East Washington street.

VIOLET RUSSO WEDS D. LATORRE

Before an assemblage of friends and relatives of the couple, Rev. Fr. S. F. Anuskiewicz, assistant pastor of St. Vitus church, performed one of the most impressive wedding ceremonies of the spring season, when he joined together in holy wedlock, Miss Violet Russo, daughter of Mr. and Mrs. Anthony Russo, of 706 Pearson street, and Dominick Latorre, son of Mrs. Mary Latorre, of South Mercer street. The event took place on Thursday morning at 9 o'clock in St. Vitus church.

The bride was lovely in a white satin gown with fish train and a white tulle veil with a braided crown caught with a cluster of orange blossoms. The gown was made by Mrs. Margaret Russo, the bride's sister-in-law. Miss Russo carried an arm bouquet of Faster lilies and lilies of the valley. Miss Frances Pagley, of East Lutton street, was maid of honor, and Thomas Morell, of Struthers, O., a close associate of the groom, served as best man. Vincent Russo, son of Mr. and Mrs. Mike Russo, was ring bearer, and Jeanne Russo, daughter of Mr. and Mrs. Louis Russo, was veil carrier.

Following the ring ceremony, a delicious wedding dinner was served to members of the immediate families and a few invited guests in the Tigers club rooms, South Mill street. Mrs. Mary Biondi and Mrs. Margaret Russo were in charge of arrangements.

Assisting them were Miss Madeline DeFiore, Miss Mary DeVito, Miss Adeline Tempesto, Miss Jennie Latorre, Miss Caroline Cafro, Mrs. Sadie Cafro, Mrs. Margaret Mastren, Mrs. Theresa Russo, Mrs. Stella Russo and Mrs. Anna Russo. Adorning the center of the bridal table was a three-layer cake made in four leaf clover style which was baked by Mrs. Margaret Russo. The cake was topped by a miniature bride and groom.

Late Thursday Mr. and Mrs. Latorre left for a honeymoon. They will tour New York state and upon returning they will be at home to their friends on South Mercer street.

Out of town guests included Mr. and Mrs. John Ross, Duquesne, Pa.; Mr. and Mrs. Peter Morell, of Struthers; Mrs. Vincent Battaglia, of Youngstown; Miss Virginia Punittie, Warren. Jesse Willard, of California, former heavyweight champion of the world, was a special guest.

Mrs. Robert Brown, nee Evea Coulter, a recent bride, was taken completely by surprise when she arrived at the home of Mrs. Fred Singer, 828 East Morton street at 4 o'clock, Thursday afternoon to give a music lesson.

The living room was filled with mothers of her pupils, seated at small tables, which were centered with bud vases containing choice blooms of the season. After the excitement had subdued, Mrs. David Clement, in a charming manner, presented Mrs. Brown with a beautiful gift in behalf of the women present. She in turn, gave an appreciative response.

Delicious refreshments were served, Mrs. Singer having as aides, her mother, Mrs. Schmidt, Mrs. Harry Irwin and Mrs. David Clements.

An hour of informal pastimes and conversation, concluded the delightful occasion.

Miss Josephine Kennell will become the bride of Albert Pagett on June 13 at the First Christian church of Gary, Ind., where they reside, local friends learn.

Miss Kennell's brother-in-law and sister, Mr. and Mrs. Wilbur Pickering of Oregon, Ill., formerly of Gary, formally announced the engagement at a dinner party some time ago in the home of the groom's parents, Mr. and Mrs. Virgil Pagett, 848 Madison avenue, that city.

The daughter of the late Mrs. Anna E. Parratt of Gary, Miss Kennell received her high school education in New Castle. She resided until three years ago with her sister, Mrs. Harold Allen, East Brook, and has a host of friends in this section.

COMMENCEMENT TIME

THIS is the commencement season, the time of year when new groups of grade school, high school and college graduates finish academic courses and go either to higher institutions of learning or into the world to follow wage-earning vocations.

On the shoulders of both those who intend to continue in school and those who are ready to take their places in the world rests responsibility graver than at any time in recent history.

Facing the graduates of 1937 are threatened wars, domestic strife in this country and elsewhere, problems of economic and social readjustment following the depression, political upheavals which promise to change the course of history.

June 1937 presents a perplexing picture to graduates, and commencement speakers are hard put to find subjects on which to address the boys and girls.

But optimism is possible even in these troubled times. The graduates of 1937 need no longer fear that the age of pioneering has passed. There is no reason to fear that opportunities are no longer abundant, for this mixed-up world is begging for men and women who will lead others in the way of peace, prosperity and justice.

June 1937 presents a challenge to those who are entering the world for the first time. History will record how well these graduates met the challenge.

MORE MONEY FOR FARMERS TO SPEND

The government economists' estimate that the farmers' cash income for the first half of 1937 will be the highest for the period since 1930 is good news to all American industry. Nature seems to be doing more than legislation to increase the farmers' buying power on which so many industries depend.

Farmers are both liberal and prudent buyers. During the depression their equipment depreciated. Now they need more farm machinery. They will also buy more automobiles. Farm houses and barns will be repaired and painted. Payments will be made on debts, thus releasing frozen funds for investment in industries.

An editor of the Kansas City Star remarks that "the stage is set for the best year farmers in this area have experienced in the last ten years." It has been a long time since the country looked for a bright spot in the western farm belt. The farmers have still to reckon with the weather and insect pests. But the outlook at least is decidedly encouraging.

DECLINING DEFICITS

The federal treasury, with one month to go before the end of the fiscal year, resumes work with a deficit of nearly $2,400,000,000. The estimate that it will be increased $150,000,000 by July 1 takes note of the reductions in expenditures recently promised by the departments. Their cuts, here and there, come too late to have any appreciable effect on the treasury's showing.

A $2,550,000,000 deficit will be the smallest since President Roosevelt took office. This reduction would be more gratifying if it could be attributed to decreased spending instead of increased receipts, says the Philadelphia Inquirer. The government's revenue has been rapidly expanding because of higher taxes and business recovery. But the extension of the government's services naturally costs more money.

Hopes that next year's deficit will be held to one-third of this year's are dependent on the economies so strongly urged by President Roosevelt in his April message to congress. There was a possibility at one time that congress would go even farther and attempt to balance the 1938 budget. That hope is fast fading. But taxpayers can derive some comfort from the indications that the era of progressively mounting deficits is ending.

CRIMINAL HITCH-HIKERS

Motorists on the highways will find with the approach of summer an increasing number of hitch-hikers on the road, importunate young men with a look of appeal in their eyes and a significant thumb poised in the air. Kindly disposed motorists will stop and take them aboard. Others, more cautious, will pass them by.

It is this latter course that should be followed by those who desire to safeguard their own welfare and avoid the dangers of assault, robbery and even of murder. This latter possibility is not entirely imaginary. The brutal killing of a young woman by two hitch-hikers whom she had given a lift along the road has been reported within the last few days and it is not by any means the sole instance of such a crime.

It is unfortunate that hitch-hiking has to be viewed as a practice that is menacing to safety and to life. It offers a convenient and economical means of transportation for travelers without means of paying their way. Some of the hitch-hikers are innocent and deserving persons and others are animated by evil designs.

The prudent motorist, accordingly, will ignore the mute supplications of the hitch-hikers because there is no means of distinguishing between the two until their true character is revealed by events, when it is too late. Some states have laws against hitch-hiking but they are a dead letter on the books.

The problem they are designed to deal with, however, is sufficiently serious to justify vigorous action toward enforcement.

The Parent Problem

By Garry C. Myers, Ph. D.

WHAT LIES AHEAD FOR YOUTH

IT HAS BEEN my privilege to serve as a leader of public forums put on in several cities by the U. S. office of education. Though the forums I lead usually are with parents, I have also led a number of youth forums. These youth forums are attended by and participated in by young men and women between 18 and 25—the age range of 20 per cent of our population, and from which come half of our criminals. The leader does not need to talk much; the youths express themselves freely, and we oldsters can, by listening to them, grow a deal wiser.

In one of these youth forums the large topic was: "What's ahead for youth?" In my belief introductory remarks I referred to youth's fears and anxieties, and how these were enhanced by problems incident to preparing for a vocation, getting and holding a job, increase in leisure time and preparation for it, choice of a life mate, and the possibilities to make such choices more intelligently and learning to make martial adjustments.

One participant of the forum suggested that a tremendous problem in home and school education is to prepare for making wise choices. Then I was reminded of that interesting book, "Coming of Age in Samoa," by Margaret Mead, in which she pictures the young adolescent of a primitive (very simple) society in comparison with its growing complexity, conflicting standards and strains of tensions.

Concerning Jobs

Concerning jobs, we observed that the youth of today lives among more adults and fewer children than his parents did, and that 50 years hence there will be still fewer children and young people in the total population. With the tendency to exclude or retire persons over 40 or 50 from employment, youth will have relatively more opportunities for employment 50 years hence, at the present economic rate, unless machinery seriously interfers. Then there arises the problem of holding a job once obtained. Very surely in the future there will be increased demand by employers upon qualities of character such as industry, persistence, dependability; also upon ability to make personal adjustments. One large firm which employs graduates from a famous trade school makes just one requirement, that they shall have ability to get along well with others.

In his "New Careers for Youth," Walter Pitkin wisely says:

"The very rich and the very poor are disappearing. The middle-class job, the middle-class income, the middle-class outlook on life will prevail in our day . . . shorter hours of work, easier work, earlier retirement in middle age, and probably wider diversity of jobs will give you little wealth, but much comfort and human friendliness."

All Of Us

ARE WE CRY-BABIES?

WISH I knew why these Sob Songs are so popular in these United States. Wish I could understand why this land of the free has become the home of the weeps.

A lad loves a lass. She says she loves him, too. He believes her. She leaves him for another lad. He sobs his grief in public. Nobody snickers at the big cry-baby. All of us join in the soppy, sloppy chorus.

Or it may be the maiden who loves a lad—and sees him turn fickle—and sees him walking down the avenue with another lass. Does she hide away with lacerated heart? Not she . . . not today. Instead she stands on a corner and cries as though that little heart would break—or dissolve in salty tears and flow away down the gutter—all the way to the "unplumbed, salt, estranging sea."

These are lugubrious days. Such a sadness we're having. Such "dropping of warm tears." Such moaning, such a mess! . . . And why, I ask again, these drippy, weepy Sob Songs?

What's happened to us? Are we shell-shocked? Is it the stock crash, still? What's become of the gruff old codgers who used to roar at a whimpering young fellow: "Be a man or a mouse or a long-tailed rat!"

Of course we've always had sobby songs—but the old ones were different. Remember, "You Made Me What I Am Today?" Remember, "I Wonder Who's Kissing Her Now?" Remember "That's How I Need You-o-ooh?" They were sloppy enough but they were few and now we're turning them out by the thousands.

And what I'd like to know is this: "Are these Sob Songs we're hearing these days just songs that mean nothing but not-unpleasant melancholy, or do they mean we've become a nation of men and women who yell when they're hurt, who advertise their grief in public, and yowl for the sympathy of every passing stranger?

I hope they don't. I hope we have iron in us still. I hope they do NOT mean we're a howling, whimpering, sniveling bunch of mama's boys and girls. . . . Because mama was tougher than we sound.

ALMANAC

An eminent New England almanac maker, while extremely busy one day, was interrupted by his young printer's devil.

"Mr. Thomas, you've left out predictions for July 13," he complained. "What'll I put in?"

"Tarnation, young man, can't you see I'm busy! Put in what you please, but get out!"

When the almanac came out, these startling words appeared opposite July 13: Rain, hail and snow."

You can imagine the old fellow's language when he saw that. But on July 13th, according to records, it actually did rain, hail and snow; the next year the almanac outsold all its competitors.

It looks as if there is going to be a war before that trouble is over in Spain. All some of the foreign nations seem to be waiting for is a chance to get into it. They have been long enough at that war in Spain to fight a couple of wars. They ought to get some Americans to show them how to rush them over the trenches. Those terrible war machines don't seem to be so much.

UNDERPAID

Bedeviled by Mrs. Roar, Julius sought a job yesterday.

He went by a building where he saw some men standing watching a steam shovel. He tried to get a job helping watch the shovel but found he could get no cash for that.

Finally he encountered the excavation foreman.

"Yes, I need a man to trim this excavation after the steam shovel gets through," said the foreman. "Like to take it?"

"What does it pay?" asked Julius.

"We always pay what a man is worth," said the foreman.

"Thanks," said Julius, walking away. "I wouldn't be satisfied with that."

On Decoration Day after doing work on our place we took a ride out through the country and we saw many men, women and children working in the field. They were also working late at night. What is going to happen when those good people demand an eight hour day and a five day week? "What," asks Arminty Maude, "has become of the girl who was crazy to get married."

Back in yesteryears every small town had 'em—women who were "crazy to get married," but at the moment we cannot think of one like that now. Maybe the modern girl uses different tactics.

DEAR MISS MARKEL—My wedding will take place within a few weeks. For practical reasons, I shall wear a long, afternoon dress of a pastel shade and a picture hat. Should I carry an arm bouquet or wear a shoulder corsage?—BRIDE-TO-BE.

Answer—You may choose either, according to your wishes. If you carry an arm bouquet, it must consist of colored flowers (never white and never a shower bouquet) matching or contrasting with your dress.

The bride who dresses in white should always carry a white bouquet.

DEAR MISS MARKEL—Will you be kind enough to settle a question of etiquette? A claims that an R. s. v. p. requires an answer whether of acceptance or regret. B claims only in case of acceptance is it necessary—E. G.

Answer—R. s. v. p. means a reply is desired. And this reply should be sent whether it is an acceptance or a regret.

DEAR MISS MARKEL—Should the tie be worn over or under the points of the wing collar when wearing a tuxedo?—R. S.

Answer—It should be worn over the points and never under.

Planes Prove Effective.
Better Ships In Clashes.
War Conditions Changing.

By LESLIE EICHEL
Central Press Columnist

WHATEVER MAY BE the outcome of the Spanish situation, two things attract the attention of the war ministers of the world:

(1) The superiority of airplanes over warships in a joint encounter.

(2) The continued deadliness of submarines.

Warships seem to miss the planes, but the planes do not miss the warships.

And shipping remains at the mercy of submarines.

Fighting on land, even with the most modern air bombers used, is no more decisive than it was in the World War. Even the modern tank seems to make no inroads.

But fighting on the sea is another matter. If the flying radius of air bombers can be extended still farther, the navies of the world—except submarines — may be made useless.

Nations with the largest navies—Great Britain, the United States, Japan, France and Italy — chiefly are concerned, but Italy is the best prepared of all to control a circumscribed area, such as the Mediterranean. These nations likewise have the largest merchant fleets.

Under the changed conditions the Soviet Union, with its large air fleet and with a very small navy, could combat effectively the huge Japanese war fleet—from bases in Siberia.

And Italy, which has built a navy based largely on submarines and speedy light cruisers, might seriously harass the entire British navy and merchant marine.

The British rapidly are achieving a new balance in their fleet, and in two years from now will be "invincible". The United States has a better balanced naval and air fleet—for home use. The Americans, however, would be at a serious disadvantage in the far Pacific, due to lack of bases. Some American military authorities are said to believe that they could not defend the Philippines successfully.

PATROL DANGERS

International patrols always are dangerous.

The incident over the German "pocket" cruiser Deutschland was certain to occur. It has occured wherever international patrols of war zones have been maintained in the past.

The Spanish Loyalists assert the ship was far inside its patrol post. They assert the ship fired on their planes and their planes responded.

The Germans deny this, saying they were unjustifiably bombarded.

As a reprisal they sent warships to lay waste to the fortified city of Almeria.

An international situation of grave nature is created. In the heat of the angry arguments, the truth cannot be ascertained. But dangerous war passions are aroused.

If there had been no patrol, foreign ships would not have been there—legally.

The United States always is wise in refraining from foreign patrols.

* * *

CAN THIS BE STOPPED

When, however, a Loyalist merchant ship is sunk by a submarine with the loss of perhaps 200 lives, the patroling nations accept it as an act of war.

But, if as charged, an Italian submarine sank the vessel in behalf of the Fascist rebels, what then?

Submarines are not on patrol duty, and besides patrol ships do not sink merchantmen.

But the question here is broader than that:

Small submarines, in any war, be permitted to sink merchantmen as they did in the World War? Public opinion is against it. German historians blame the loss of the World War over inflamed public opinion in America and in other neutral countries because of unrestricted submarine sinkings.

OUR OWN PATROL

Meanwhile, in the United States itself, a serious encounter occurred on patrol duty on the labor front. Chicago police clashed with striking workers at a plant of the Republic Steel company, which held out against entering into the agree-

A FORESIGHTED DRUNK

Two sailors strolled into the police headquarters of an American port city recently, approached the desk sergeant and chorused, "Here's $130. We want you to take it."

"Whattt!" the sergeant exclaimed.

"That's right," said one of the sailors.

"Now, please tell me what this is all about," the astonished officer asked.

"It happened Saturday night. We met a chap who was very drunk and we gave him a ride. He had $135. He gave us $130 to keep for him. He was afraid he would spend it. This fellow, his name was Strole or something like that, said we could give it back to him in a couple of days.

"We let him out of the car at Five Points. And now we can't find him. We'd like to give you the $130 and you see if you can find him."

"You say the man was drunk and his name was Strole, Straw or Sew," saidl the sergeant. "One minute; I'll look at the arrests reported Saturday night."

A moment later the officer read from the police report, "William Strole, 52, arrested 8:30 Saturday night in the 1800 block on Moore Street. Booked in city jail on drunk charge. Sentenced by Police Judge to pay $10 or serve four days in city jail."

"Why," the sergeant said, "he's in jail because he hasn't got $10 to pay a fine for being drunk."

The sailors identified Strole as the man who gave them the $130.

The desk sergeant scratching his head, handed the money to Strole and said, "You are undoubtedly one of the luckiest men in town tonight—even if you are in jail."

OLD CRANKMIRE TALKS AGAIN

Old Crankmire heard a crying child.
He turned and saw a woman wild
With anger o'er some trifling wrong
Dragging a shreiking boy along.

She tugged his arm and slapped his hand.
Such treatment Crankmire couldn't stand
And so he said: "I'd like to know
Why you abuse that youngster so?"

The woman answered: "Can't you see?
He will not step along with me.
I cannot get the child to mind!
Always he wants to lag behind."

"No," answered Crankmire, "that's not true,
You think he should behave as you
And so you punish him and scold
Merely for being five years old.

"At five years every child delights
In all the town's entrancing sights.
Perhaps when he is forty-two,
He'll be as wise and cross as you.

"This punishment which you impose
Is not for wilfulness he shows.
But just because he wants to stare
At joys for which you've ceased to care."

City Marbles Champ To Be Determined June 12

Forty confident New Castle school pupils, the public and parochial school champs and runners-up in the city-wide marbles tournament sponsored by The Townsmen, will compete for the New Castle championship title and the accompanying right to represent the city in the July national tourney in final play-offs at the old Rosena furnace grounds on Saturday, June 12.

Play Opens At 2 O'Clock

Daniel H. Treloar, Jr., the marbles tournament chairman for The Townsmen, said the elimination games would open at 2 sharp. He said 20 schools will have representatives in the rings.

The winner of the final eliminations will travel to Wildwood, N. J., in July to play against others from all parts of the country for the coveted national title. The Townsmen have underwritten the local champ's expenses.

For several weeks school run-offs have been in progress under the direction of members of The Townsmen and competent aides furnished by the National Youth Administration.

Capable attendants will be present tomorrow to preside over the eliminations which will determine the city champ.

Under the playing rules here, the school champ and the one who was runner-up to him will be eligible to compete for the title. The school champs later are to receive medals for their showings in their home school contests.

Roster Of Competitors

Competing Saturday for the title will be these school representatives:

Ben Franklin—Joe Temperato, champ, and Angelo Caliern, runner-up.

George Washington—Don Young, champ, and Dave Jenkins, runner-up.

Highland—James Davis, champ, and James Garberry, runner-up.

Arthur McGill—Billy Andrews, champ, and George Mucahy, runner-up.

North Street — Leon Beach champ, and Joe Rotunno, runner-up.

Oak Street — Charles Emery champ, and Leander Liverana, runner-up.

Thaddeus Stevens—Thomas Parkison, champ, and Bernard Samato, runner-up.

Rose Avenue — Walter Kirber, champ, and Bobby Houston, runner-up.

St. Phillip & James—E. Ludwiczak, champ, and Wm. Kusnierezyk, runner-up.

Aided In School Contests

The West Side and Mahoning School contests have been managed by Lauri Laurell for The Townsmen, assisted by William Trott and Silvio Restivo of the NYA. Donald Thompson presided over the East Side play-offs with Vaughn Weatherby and George Searfoss of the NYA to assist him. Up on the the North Hill Alfred H. Owens was aided by John Cybula and Francis Ritenour of the NYA and on the South Side John R. Hodge had for his capable helpers Angelo Cestrone and Ralph Cratty, NYA-assigned youths. School physical education instructors cooperated.

Warns Graduates Federal Activity Threatens Rights

F. And M. Commencement Speaker Declares Government Scope Lessons Home Rule

LANCASTER, Pa., June 4.—A solemn warning that "the right of our people to regulate their own affairs" is threatened by the increased scope of government activity from Washing was sounded here by Henry Wolf Bikle, of Philadelphia, general counsel for the Pennsylvania Railroad.

Speaking before the 147 gowned graduates of Franklin and Marshall College at the sesqui-centennial commencement exercises in Hensel Hall, Bikle urged a constant fight "to promote the true liberalism that seeks to protect our right to be free."

The speaker was one of seven men to receive honorary degrees at the exercises. The baccalaureate degrees were awarded to 147 students.

"I do not subscribe," Bikle said, "to the suggestion that our president is consciously pressing towards what may be in the nature of dictatorship. I believe that his purpose is to release the people from the pressure and restriction that sometimes result from economic dependence," but he himself, quoting Euripides, in his finished address at the Harvard Tercentenary, recognized that we do not always see the direction of our own path.

"But it is difficult to see without disquiet the tremendous increase in the scope of the activity of the government at Washington, since it involves the diminution of 'home-rule' and carries the governmental power farther."

That enounter probably will prove the undoing of the Kelly-Nash Democratic machine in Chicago. The midwest metropolis is becoming a heavily organized union community. No matter who is "right" in these clashes, they react heavily.

No such clashes have occurred—up to this writing—in the great steel centers of Cleveland and Youngstown. The city administrations in those places are more efficient.

There is a move on to disarm American police—except as to tear gas—when on strike duty. English police have been unarmed for years—and even in the largest strikes they control the situation better than do American police.

Incidentally, the Republic Steel company, second largest independent producer, probably will be called before a congressional committee. In a business way, it is the most aggressive of the steel companies. It is under the domination of Tom M. Girdler, of Cleveland, new president of the American Iron and Steel Institute.

Revenue Increases From Parking Meters On Sharon Streets

SHARON, June 4.—Revenue from the State street parkometers in May totaled $687.05, which is $52.80 more than was collected in April, Fred S. Williams, city clerk, announced today.

Last month's total was $634.25. Total amount collected since their installation four months ago is $2,372.10.

City council in special session last week authorized the purchase of additional meters to be installed on State street from the Erie branch tracks east to Sharpsville avenue and on South Dock street from State t Bank street.

Junior Choir Has Enviable Record

The junior choir of the First U. P. church, under the direction of A. Alfred Taylor, organist and choirmaster of the church, is bringing to a close a most successful season of achievement.

Organized only last fall, and having a membership of 55 voices, they have regularly provided the musical part of the service once each month, have sung large programs at Christmas and at Easter, besides an appearance before the local Rotary club, at the Almira Home, and a program of Good Friday music over the radio at Youngstown.

On the coming Saturday they will have a broadcast appearance from KDKA in Pittsburgh at 1:45 p. m., when they will sing a 15-minute program of sacred music.

Their last church appearance for present season will be on Sunday, June 13, when they will provide the music for the morning service.

Pavilion Will Be Dedicated

NEW WILMINGTON, June 4.—The picnic pavilion, which has been under construction for several weeks, is nearing completion and plans have been made to dedicate it to the council this evening.

A dinner will be served at the pavilion by the firemen in honor of council members, community chest members and members of the school board. A short program, dedicating the pavilion, is planned, at which time the picnic shelter will be turned over to council for public use.

The social period last night was informal, and refreshments were served by the program committee consisting of Mrs. B. K. Thacker, Mrs. W. C. Mechem and Mrs. W. C. Eckenroad.

A modernistic circle was the centerpiece for a beautifully arranged table, it being filled with white roses, with ivory tapers on either side.

WASHINGTON AT A GLANCE

President On Tax Dodger Hunt

Is After Big Income Tax Dodgers After Recent Drive On Little Fellows

FIRST CAMPAIGN WAS BOOMERANG

Central Press
Washington Bureau
602 Times-Herald Bldg.

By CHARLES P. STEWART
Central Press Columnist.

WASHINGTON, June 4.—President Roosevelt goes about his campaign to catch very rich income tax dodgers (if any) in a fashion that is highly creditable to his sense of what's popular and good publicity.

The internal revenue folk have bungled their job in these respects.

Two or three years ago they hit on the notion that large numbers of small taxpayers were holding out, a few dollars apiece, on their returns. The theory was that, if all these pewees could be scared into making up their supposed delinquencies, the total would run into handsome figures.

So the revenue outfit went after us. I know something about this, for I was included. Being, perhaps, a trifle more belligerent than the average, I took a lawyer along with me, when called on to explain myself. My lawyer, in turn, alarmed the income taxers. They not only said I was all right, but apologized for bothering me. However, I imagine that quite a few of us were mulcted each of a handful of small silver. I do not believe that many of us hired lawyers, and it frightens the ordinary 10 or 15-dollar taxpayer to be threatened with a federal prosecution.

* * *

VOTERS ENRAGED

I do not know what the yield was. It was substantial probably.

Nevertheless, it was not good business.

It enraged a big bloc of voters, most of whom undoubtedly felt that they were being made the victims of a mere racket. Besides, the chances are that few of them really were guilty of skimping on the government—intentionally, anyway.

The advertising was poor stuff, too.

What jazz was there in announcing that 500,000 John Smiths or 1,000,000 Bill Browns had been proved to have reneged $2 or $3 per capita on Uncle Samuel?—even if they had done so?

* * *

THIS IS DIFFERENT

To make a "good story", as newspapermen express it, it must be demonstrated that some well-known multi-millionaire has slid through an entire year entirely untaxed or obviously inadequately taxed, with the rank-and-file citizen carrying his normal burden.

That occurred when the senate's Pecora investigation disclosed that J. P. Morgan paid no income tax the same year that I, for instance, paid one.

Me—Taxed!—The same year that J. P. Morgan wasn't!

This is enough to make the average American hot under the collar.

* * *

NOT SO DRAMATIC

Well, we have the Raskob-duPont case pending.

But that isn't as clean-cut a case as J. P. Morgan's was. It involves a multiplicity of technicalities. It is a legal squabble that scarcely anyone understands.

A senate committee asks:

"Did you pay an income tax in such-and-such a year?"

The answer is, "Yes", or "No".

A legal answer is, "But and but and but."

* * *

AIMS AT CLEAR-CUT ANSWERS

President Roosevelt desires a congressional committee's form of an answer.

He can go after alleged tax dodgers by the legal method, but "Buts and buts and buts" are the only rejoinders he will get.

Therefore, he demands new laws. To get them he will have to have a congressional investigation, calling for direct answers. And these answers will give publicity to what he wants to give publicity to.

If he can get away with it, it will be good publicity.

The nub of it is:

He wants an investigation. He wants TALK.

He wants it, of course, on his side.

"Super" Plane To Seek A New U. S. Record

United States Will Try For New Transcontinental Record This Month

(International News Service)

NEW YORK, June 4.—The finest of Northwest Airlines' fleet of high-speed transport planes, described as "the fastest in the world," will take off from Seattle sometime early this month in an effort to set a new transcontinental record, carrying a capacity load of passengers and cargo.

The plane—a "Super Lockheed," powered with twin motors developing a total of 1,700 horsepower—has a cruising speed of 230 miles an hour and a top speed of 268 miles an hour.

Tentative schedules for the new ships, to be known as the "Zephyr" Fleet, call for nine hours elapsed flying time between Seattle and Chicago—the line's present terminus. With favorable flying conditions, Northwest pilots said, the Seattle-New York run should be made in less than 12 hours, which would cut the existing record in half. Only one stop en route is contemplated—at St. Paul, Minnesota, which is on the direct route.

50 Per Cent Over-Powered

The "Zephyr," engineers explained, is "50 per cent over-powered" and is capable of ascending to a height of 12,000 feet—fully loaded—with only one motor. Other recently developed transports, depending on only one motor under similar conditions, claim no more than 8,000 feet.

A "mid-wing," rather than a "low-wing" monoplane, the cabin was constructed to accommodate 14 persons comfortably, but—to afford a maximum of room and convenience—has been equipped for only ten passengers.

Film Star Urges Planned Boudoirs

(International News Service)

HOLLYWOOD, June 4.—Women who consider their bedrooms as mere places to sleep are doing themselves incalculable harm, Ann Dvorak says.

Boudoirs should be carefully planned to mood and color to promote drowsiness, she declares. This, she added, is in line with the opinions of physicians and scientists who claim that deep, dreamless slumber is of greater aid to feminine beauty than all the beauty parlor tricks put together.

'Exciting" bedrooms, Miss Dvorak believes, lead to fitful rest and bad dreams.

Her own bedroom is of cream-colored brick, furnished in oak.

INDIAN CAVE TOWN

(International News Service)

JUJUY, Argentina.—An Indian cave-town, believed to have been abandoned approximately at the time of the Spanish Conquest, has been discovered by Professor Fernando Miranda, of the University of La Plata. The professor's diggings already have provided him with 45 cases of archaeological relics. The discovery was made at Abra-Pampa, in the Jujuy province, and Inca relics brought to light so far include scores of human skeletons, kitchen utensils and silver jewelry.

Miami Will Have World's Largest Airplane Hangar

(International News Service)

MIAMI, Fla., June 4—Miami's international airport, linking North and South America via the air lanes, is the proposed site for the largest airplane hangar in the world.

The airport, and proposed site for the world's largest "airplane garage," is situated at Dinner Key and is the present air station for the Pan American Airways system which operate between Miami, South America, Mexico, Canal Zone and islands in the Carribean.

Consideration by the Pan American air line for this huge hangar follows close upon the announcement that the clipper ship service has had under secret construction six giant ocean air liners, weighing between 40 and 50 tons each, with four motors each developing 1,500 h. p.

The clipper ships now in service weigh 19 tons each and accommodate 40 passengers.

Asks For Funds To Build Schools

(International News Service)

WASHINGTON, June 4.—President Roosevelt was asked by the senate today to grant public works funds to aid in construction of 1,643 schools throughout the nation without requiring that all the federal money be spent on relief workers.

Senator Schwellenbach (D) of Washington sponsored the resolution which was sent to the house for its concurrence.

The president was reported friendly to the request.

GENEVA, Switzerland.—Tired of life and determined to die in no ordinary way, a local barber dynamited himself and family to death here recently. The blast demolished the five-floor building, killing his wife, child and the milkman who was delivering a bottle at the time. No one else in the building was injured.

Dedicate Museum To French King

(International News Service)

VARENNES, France, June 4.—Dedicated to the memory of Louis XVI, who was the first European king to recognize the independence of the United States, a museum filled with priceless relics of that tragic monarch's reign will be opened here June 17.

Historically, Varennes is famous for two things: first, it was here Louis XVI was arrested in 1791 as he was attempting to flee the country with Marie-Antoinette; and second, despite the heroic resistance of American soldiers from Pennsylvania, the tiny village was completely wiped out during the World War.

Displays Banner In Front Of Apartment In London Wishing Happy Couple Success

(International News Service)

LONDON, June 4.—Captain Reginald Jaffray, wealthy American, stood his ground today and the situation was well in hand.

Yesterday he defied practically the entire city of London, fellow tenants, real estate agents and lawyers, by filling the balcony of his Piccadilly apartment with expensive flowers and displaying a banner which said:

"Long life and happiness to the duke and duchess."

This, obviously referred to the Duke and Duchess of Windsor. Jaffray was ordered to remove the banner. But he replied:

"Go to hell. You will take it down over my dead body. Nobody complained when I displayed $500 worth of loyal decorations at the coronation."

Jaffray met the Duke of Windsor at Bermuda and admires him greatly.

(International News Service)

CHICAGO, June 4.—Quiet prevailed on the Chicago steel strike front today with pickets and police standing by at the South Chicago plant of the Republic Steel company, scene of rioting Sunday in which seven demonstrators were killed and scores injured.

The latest victim to succumb to wounds suffered in the battle with police was Hilding Anderson, 27, an employe of Carnegie-Illinois Steel company. His death occurred as strikers were holding mass funeral services at the steel workers' organizing committee headquarters for three union victims of the Sunday rioting.

Nicholas Fontecchio, organization chief here for the S. W. O. C., said today he expects to see a break in the solid front presented by the three independent producing companies that have refused to sign a contract with the Amalagamated Association of Steel, Iron and Tin Workers, A. General Mola Is Killed In Crash

One Of Rebel Military Triumvirate Killed As Airplane Crashes Near Bilboa

(International News Service)

BILBAO Spain, June 4—With victory in his long campaign against Bilboa daily growing nearer, Gen. Emilio Mola, one of the rebel military triumvirate, was killed Thursday in an airplane smashup.

Rebel radio stations at both Salamanca and Votoria announced Gen. Mola's death.

It paralled the fatal airplane crash which blotted out Gen. Augusto Sanjurjo—then slated to become rebel premier—in Portugal during the first few days of the Civil war.

The young general Mola was on a reconnoitering flight over the mist shrouded Basque hill, where his army has pounded forward on a 30-mile front.

FIRST TIME IN MONTHS N. CASTLE LADY WALKED FAR

Was Weak, Light-Headed, Troubled With Pains In Head And Back Due To Constipation. Tells How New Medicine Vendol Gave Marvelous Relief

"I have never had any medicine to make me feel so good as this new Vendol has and it was jhst what I needed," says Mrs. Lola Eakin of 441 Court St., New Castle, who came to the New Castle's Drug Co., and gave her experience to the Vendol Man.

MRS. LOLA EAKIN

"This is the first time in months I have been able to walk down town. I felt weak, tired and exhausted all the time and any extra exertion would wear me out.

"I often felt so light-headed I couldn't get out of bed but just had to lie back again. I was troubled with a terrible pain in my head and severe pains across my back, and my arms were so weak that I couldn't hold anything in my hands. My nerves were excitable and my sleep was light and failed to rest and refresh me.

"I began taking Vendol and the little Vendol Laxative tablets and the treatment gave marvelous relief from constipation, and then all my other troubles began to improve. I kept taking Vendol and now I feel like myself once more and am gaining strength to get around again.

"I have a good appetite and enjoy my meals, do not have those attacks of dizziness, the pains in my head, back and arms have been relieved and I sleep sound every night and get up of mornings feeling rested.

"I strongly recommend Vendol because I know it is good medicine and advise everyone to try it if they have the same troubles."

Vendol is made from roots and herbs to which is added valuable Alkalines and this famous recipe has already helped over a million men and women who praise it for the wonderful benefits it gave them.

Come to the New Castle Drug Co., 31 E. Washington St., and let the Vendol Man explain how this excellent medicine will also help you. The New Castle Drug Co., 24 N. Mill St., also sells and recommends Vendol.

State Forests Bloom In June

Rhododendron Will Be In Blossom In State Latter Part Of Month

MOUNTAIN LAUREL BLOOMS EARLIER

(Special To The News)

HARRISBURG, June 4.—The beauty of Pennsylvania's State Forest lands which will blossom forth this week in a panorama of colorful, blooming wild flowers is recommended to week-end travelers and nature lovers by Secretary James F. Bogardus, of the Department of Forests and Waters.

The rhododendron or giant laurel, one of the largest and most ornate of the native shrubs will be in bloom during the latter part of June and the early part of July. The flowers vary in color from pure white to deepest rose, and is aptly termed by the botanists as "gorgeous.

It is consideraby taller than the mountain laurel, the State Flower of Pennsylvania, which is in bloom before the rhododendron.

Two other shrubs belonging to the rhododendron family, native of Pennsylvania, are the white swamp azaleas, whose extremely fragrant white and pink flower appear from June to August and the purple azalea which blooms in May and June, or at the time its leaves unfold.

The rhododendrons comprise a numerous and widely distributed genius of shrubs with more than 400 species throughout the temperate regions of the northern hemisphere. There are 26 known species in North America, not including the many hybrids that originate in cultivation. Many native species of this plant have recently been introduced in this country from southwestern China and the high mountains of southern Asia.

Ridgway Man Held For Court

Charge Attempt Made To Extort $500 From Doctor In That City

(International News Service)

PITTSBURGH, June 4.—Herbert G. Ayers, of Ridgway, who according to FBI officials, confessed to sending threatening letters to Dr. W. A. W. Switzer in an attempt to extort $500, was held for court Thursday, on $1,000 bond at a hearing before Commissioner Roger S. Knox here.

Ayers was brought here by a Deputy Marshall. He was arrested last Saturday by G-men and local police after Switzer, a prominent Ridgeway physician, turned over the extortion letter to Elk County police.

The letter said money should be placed near a dump on the outskirts of Ridgeway. A dummy package was put on the spot, but Ayers did not pick it up. He was arrested when found loitering in the neighborhood.

Truck Licenses Are Perpetual

Regulations Abandoned For Periodical License Period In State

HARRISBURG, June 4.—For the convenience of truckers operating under its jurisdiction the Public Utility Commission has rescinded the regulation which required them to renew their certificates of public convenience at stated periods.

Certificates were granted previously for a specified number of years at the end of which a renewal application had to be filed with the commission. This sometimes involved an expense and some inconvenience to the applicant, particularly to the one-truck operator in business for himself.

This new ruling makes permanent all trucking certificates by removal of their expiration date. Certificates issued in the future will be without expiration date. The expiration date was removed from bus and taxicab certificates some time ago.

LARGE PEACH CROP FORECASTED IN STATE

HARRISBURG, June 4.—Thrifty Pennsylvania housewives who did not can peaches the last two seasons because of high prices may be able this year to put up a supply for the next several seasons, J. Hansell French, secretary of agriculture, said today.

The peach crop in the ten southern peach states is 27 per cent below the 1936 crop and 32 per cent below the 1928-32 average, but Pennsylvania orchardists expect a good crop. This will mean an adequate supply for Keystone state consumers at prices favorable to both grower and consumer.

Rail Boom Under Way In China

Government Plans To Double Number Of State Railways In Five Years

(International News Service)

SHANGHAI, June 4.—China is on the threshhold of a great new railway-building boom.

Inspired partly by requirements which would arise in the event of war, the government plans to double the existing network of state railways in five years. About 5,300 miles of new line are to be built at the rate of over 1,000 miles each year.

Foreign interests are scrambling for contracts, and already several British and other European groups have signed credit agreements with the Ministry of Railways involving the supply of millions of pounds' worth of railway material.

Negotiations are now proceeding for a big British material loan amounting to 100,000,000 Chinese dollars (about $30,000,000) for various railway projects south of the Yangtse river.

Construction of three new trunk systems—one in southeast China, another in the southwest and the third in the northwest—is envisaged.

According to the Minister of Railways, Mr. Chang Kia-Ngau, the main considerations behind the scheme are:

(1) The need for improved interprovincial communications;

(2) Development of agriculture and industry in the interior; and

(3) National defense.

Mr. Chang points out that a huge area of China, including the provinces of Anhwei, Chekiang, Kiangsi, Fukien, Yunnan, Kwangsi, Kweichow, Szechuen and Kansu, are at present excluded from the national railway system.

Several other provinces are inadequately served.

Under the new five-year plan most of these provinces will be given direct access to one another as well as to the sea coast.

Projects for which agreements have already been concluded with foreign interests include a line linking Nanking, the national capital, with the newly-completed Hankow-Canton railway.

A contract for the purchase of $4,500,000 worth of British rail material for this line has been signed by the Ministry of Railways and a British firm.

The transaction is to be financed jointly by the Hongkong and Shanghai Banking Corporation and the trustees of the British share of the Boxer Indemnity Fund.

A French syndicate is lending China 34,500,000 Chinese dollars (about $11,500,000) in materials and cash for the construction of 523 kilometres of railway between Chengtu and Chungking, traversing the richest part of Szechuen province.

What This Country Needs - - -

What this country needs isn't so much a good five-cent cigar, according to Representative Clarence Cannon, of Missouri, but a good corncob pipe. Cannon handed out corncobs, a product of his state, to his fellow solons in Washington. Here he is shown with Speaker William Bankhead (left) contentedly puffing on the Missouri meerschaum. *(Central Press)*

Penn Grid Hero and Bride

Robert Howell McNamara, University of Pennsylvania football captain for 1937, is pictured with his bride, the former Caroline Christy Murphy, at Philadelphia. They were married secretly early in May. In addition to his football prowess, McNamara stands high in scholastic work. *(Central Press)*

The End of a Bicycle Ride

A crumpled flag (arrow) that once waved gaily from the handlebars of Harris Shanin's bike is crushed under the wheels of a heavy truck which struck the lad down at Floral Park, L. I. A woman who had rushed into the street when she heard the truck's screeching brakes is shown bending over the boy in near-hysteria. Harris was taken to hospital in serious condition. *(Central Press)*

Locksmith Is Well Paid By Royal Family

Charles A. Courtney Of New York City Opened Six Chests For Spanish Royal Family

(International News Service)

NEW YORK, June 4.—Picking locks without breaking laws is one of the most profitable of trades—more than $50,000 for a single job.

That's what Charles A. Courtney got for going to Europe and opening six jewel chests owned by the Spanish royal family and taken with them into exile.

Courtney, to whose locksmith office here the world has beaten a path, returned today on the Liner Columbus with his story and the oldest lock known.

Valuable Jewels

Former King Alfonso's family had called him to France, where 60 chests of jewels had been taken when the royal family fled from Spain.

French locksmiths were able to open all but six and then "the master" was called.

"I can't say what the jewels were worth," explained Courtney. "But I do know I made enough on the trip to buy a $50,000 collection of rare locks and keys from the Rothschild family, Count Dillinger, of Vienna, and the heirs of former Kaiser Franz Josef of Austria."

The papers say Edward will have a "truly royal income" of $150,000 a year. That chuckle you hear is an economic royalty's comment.

Roosevelt Given 15 Times As Much To Spend As All Other Presidents Of U. S.

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

WASHINGTON, June 4.—A declaration by Senator Van Nuys (D) of Indiana, that President Roosevelt has been given fifteen times as much money to spend at his discretion as all other presidents in American history, served today to strengthen the senate battle to earmark funds in the $1,500,000,000 relief bill.

Van Nuys reported Mr. Roosevelt had been given $15,428,000,000 in his first administration to spend at his discretion. He compared this to the $1,687,000,000 of discretionary funds turned over to all other presidents, from Washington to Hoover, which included four great war periods.

The battle to earmark funds in the relief bill was started before a senate appropriations subcommittee where WPA Administrator Harry L. Hopkins appeared for the second day to explain the proposed relief appropriations. He was convinced the $1,500,000,000 would be sufficient for the coming fiscal year, which starts July 1, if business conditions continue to improve.

Reproducing Tube Is Good Progress In Television

Tube Capable Of Projecting Pictures On Screen Is Epochal Step

(International News Service)

NEW YORK, June 4.—A new television radio tube, capable of projecting pictures in movie-like fashion, has been developed here by radio engineers.

Previously a different type of tube has been employed which reproduced images within the receiving box.

The new tube—about 18 inches in length—reproduces the image of the picture on its flourescent screen. The image is so brilliant that it is simply projected through a series of regular motion-picture lenses onto a large screen.

Making the first public demonstration of the tube, W. H. Painter of the engineering staff of the R. C. A. Manufacturing Company, Inc., picked up a picture which had been sent out under conditions similar to those of a regular television broadcast and reproduced it on a screen eight by ten feet.

Exceptional Clarity Seen.

Through the use of the new tube, and other recently developed receiving apparatus, it will now be possible to produce pictures that will exceed regular camera work in clarity, according to Dr. V. K. Zworykin, who assisted Painter in the research work.

"Possibilities for improvement by the television method are unlimited, compared to those which can be made in the present photographic method," Dr. Zworykin said, "because in the photographic method you can never get a reproduction of an object which is brighter than the original subject."

With the electrical recording of the television camera, the light is changed into electrons, he explained, and these are projected through a number of screens in the tube in the television set which picks up the picture before it is broadcast. In each of these transmissions the image gains power, he said, pointing out that in photographic reproduction this image loses power.

Football Game Illustration.

Citing a football game as an example, Dr. Zworykin said that under present photography methods it is not possible to record the game much after 4 p. m.

"In the future, however, the television camera may be so improved that it will be able to record and broadcast a picture of the game as long as the people in the grandstands can see it," Dr. Zworykin said.

Development of the scientific and receiving technique to this point should make it possible to broadcast regular television films into moving picture theatres.

License Issued For New Airport

Findley Wilson Granted License For New Airport With Restrictions

FLYING PERMITTED WHEN WORK STOPS

Announcement is made today that the license for the New Castle Airport on the Youngstown road, has been re-issued. The license was revoked sometime ago by the United States Department of Aeronautics due to construction work going on at the new port.

The new license has been issued to Findley C. Wilson, prominent local aviator and holder of the former license. According to Wilson the license authorizes the use of the new port for the following purposes:

Commercial use only when all construction work is stopped. Only commercially licensed pilots may use the field, and no solo student flying will be permitted.

Wilson, who is also flying instructor, states that after 3 p. m. through the week and on Saturdays and Sundays, sightseeing, passenger flights, and dual student instruction will be permitted. The time of 3 o'clock has been set due to the fact that the W. P. A. workmen are finished for the day at that time.

For students who wish to make solo flights, they will be given the opportunity to do so from another airport.

The W. P. A. workmen have gone ahead and made one of the runways suitable for use at the port. The runway, although not completed with the black top surface, consists of an earth surface, 200 feet wide, and being used for flying airplanes.

Until the new hangars at the port are constructed, Wilson will store his planes at the Youngstown Municipal airport, returning them to New Castle each afternoon and on Saturday and Sunday.

Drunken Driver Gets 30 Days In Scranton Jail

Can Serve Sentence And Still Hold His Job, Judge Arranges For Serving Time

(International News Service)

SCRANTON, Pa., June 4.—Basking on sunny seashores or living the "life of Riley" in some out-of-the-way resort is the ideal way of vacation relaxation but 46-year-old Claude W. Finn, Elmhurst, near here, is going to spend his in the county jail.

Finn drew a 30-day sentence yesterday for "tipsy" auto driving when brought before Judge T. Linus Hoban. "I'll lose my job", complained Finn. Judge Hoban took care of that.

Finn, the court ruled, may keep right on working and still "serve his time". He is to report at the Lackawanna county prison each Sunday at 8 a. m. and remain there until 8 p. m. that day starting June 13. Then when he gets his vacation in September, he is to complete the sentence by serving that two weeks, too, as guest of the county—in jail.

TWO ACCIDENTS

Kenneth C. McCart, 218 North Crawford avenue, reported to city police, at 5:25 p. m. yesterday that his car and a truck operated by Everett Shaffer, R. D. 7, were in a slight collison in Croton avenue near the North street bridge.

Glenn Montgomery, 215 East Grant street, reported he was driving a car in Wallace avenue and his machine was struck by a car with Ohio license RW89.

Few people suffer as people in a small village do when a stranger comes to town who won't tell his business.

Washington becomes more like Hollywood every day. The chief concern of statesmen seems to be face saving.

Naturalization Papers Needed

Foreign Born Seeking To Register Must Show Citizenship

(Special To The News)

MERCER, June 4—One question that has concerned not only registrars but voters as well is that of personal naturalization. This should be given careful study as it is a question over which a discussion will easily arise, states Mr. Frank McConnon, chief clerk of the county registration board.

When the applicant states that he was born in a foreign country, it is necessary and compulsory that he produce his naturalization papers or a certified certificate of the court from which he received his papers.

Regardless of how long or how well the registrar knows the applicant he cannot accept his statements to the fact that he was naturalized and we wish to impress upon the registrar that fact. The information to obtain from the naturalization papers is as follows: the date, the court, the place and the certificate number. It is our experience that the old naturalization papers issued many years ago will not have a certificate number therefore none can be obtained and we suggest that the registrar write the word "none."

Little Men Society Film Colony Oddity

Society Of Little Men One Of Oddest Fraternities Of Hollywood

(International News Service)

HOLLYWOOD, June 4.—The Society of Little Men is one of Hollywood's oddest fraternities.

The society ambraces extras and "bit" players who are all adults, but are so short they can play children's parts. There are more than 2,000 children enrolled in Hollywood's casting bureaus, but they cannot always be used.

Much studio work is done at night, when the real children can't work. There's where the little men step in, and it can be truthfully said they are generally very busy little men at the studios.

Theirs is not the only interesting profession in movieland.

'Smashing' Glass

There are men like J. Chalmers, who make glass especially for smashing. Many of the windows, champagne glasses and mirrors shattered in pictures are his handiwork. Only Chalmers is not in the glass business. He's a confectioner who makes glass of "sugar and spice and all that's nice. "That's just so no one will get hurt.

Other artisans spend their whole time making "antique" furniture, "perid" bottles, spinning cobwebs and putting loud squeaks in rocking chairs.

There are others who do nothing but rent bugs, insects and animals for pictures. You can get anything from an elephant to a horsefly at a moment's notice, and they don't cost much either, providing they are returned "in their original condition."

Skunks at $5 Daily

If you're interested, a good skunk rents for $5 a day, and a goat, guaranteed to butt, for $10.

When you see a fire on a screen the chances are the firemen are none other than members of the Los Angeles department making an extra dollar on their day off.

The beard men are other specialists. They make wigs and beards of human hair, which is imported in all shades and large quantities. There are certain Balkan markets dealing only in this commodity.

Gold Fish Catcher

Probably the most patient specialist in Hollywood is Paramount's official gold-fish catcher.

The studio's goldfish when not acting, are kept in a beautiful pool back of the administration building. If you've never tried to catch goldfish with a net in a big pool you can't realize the fun. They can get away from you, you, and, what's more, they do.

Action on a picture was delayed for three hours one day because the goldfish happened to be in better from than their pursuer.

In the particular picture it was necessary to have enough fish so they would flash in the bowl and thus photograph properly.

Movie Newspaper Publisher.

Another special job is held exclusively by Earl Hayes.

Hayes is reporter, editor, make-up man and publisher of most of the newspapers you see in motion pictures.

In real life Hayes is a printer. The studios call on him when they need a newspaper to show on the screen, particularly if it's a close-up Real newspapers are seldom used because the required headline or item usually refers to the characters in the picture.

As a result not only the newspaper, but all the items you see when one is flashed on the screen, are the result of Hayes' handiwork.

Grimes Will Go To England To Get His Money

Sharon Winner Of Sweepstakes $25,000 Also Plans To Get Married

(International News Service)

SHARON, Pa., June 4—Tommy Grimes, 25, a clerk, will go to England to collect the $25,000 which he won in the Irish sweepstakes when Le Grand Duc finished third and then return to America and marry Miss Elizabeth Williams of near Scranton, his sweetheart of five years, he revealed Thursday.

Grimes said he does not intend to quit his position although there is a possibility he will return to McDonald, Pa., his former home.

Grimes returned to his work today after having spent the past 5 days in New York where he sold a half interest in his ticket for $5,800. He flew to New York with attorney John Boland who represented him in the transaction with a British agency.

His widowed mother, who has been making her home here, admitted she is a bit homesick for McDonald and this may spur Grimes to a decision to return there.

Choir Members Meet Thursday Evening

Christian Church Choir Members Have Social Meeting At Local Home

Miss Thelma Bumbaugh was hostess to members of the choir of the Madison Avenue Christian church Thursday evening as they gtahered at her home on Sixth street for their monthly social meeting.

A short business session filled the earlier hours with Mrs. C. H. Clark presiding. After a period of practice during which special music for Children's Day was studied, the remaining time was passed with games.

Later the hostess, aided by her mother, Mrs. J. B. Bumbaugh, served a delicious lunch at a long table attractively decorated in seasonal tones.

The next regular meeting will be on July 1 at the home of Mrs. Frank Douds on Epworth street.

Pageant Given At Oak Street School

Excellent Performance Is Given By Pupils Of East Side Institution

Mother Goose and her famous children were realistically depicted by a group of Oak street school pupils. The pageant, which was recently presented on the front playground, was easily one of the most outstanding events staged at the East Side institution in years.

The large number of pupils and parents who witnessed the affair went away more than pleased. The scene for the pageant called "Mother Goose's May Day", was in the garden of Mistress Mary. The flowers were actually alive as the talented school chorus formed the setting. Mistress Mary provided music fit for a king as the Harmonica and Rhythm bands offered selections suited to the occasion.

Faculty members in charge of the event: Grace Eakin, Helen Hinkson, Virginia Bowman, Frances Carlon and Dorothy Jenkins. The pageant consisted of:

Part One.

Professor Turns Examination Day Into Tea Party

(International News Service)

PITTSBURGH, June 4.—A good-hearted "guy" is Prof. Walter A. Lunden of Pitt's school of sociology. All his students will vouch for that

When exam day for the seniors in his class arrives, what does Dr. Lunden do? Why, nothing less than throw a tea party, with a bit of muffin and a few cakes. Just to liven things up, the co-eds bring sandwiches.

Of course, it being an exam, some questions must be asked. But even here the good prof is not too harsh, and quite, quite unorthodox.

All the quivering, quaking seniors—filled with the gloom of an approaching exam—have to do is sit in front seats of the classroom and answer questions propositioned by the sophomore and junior members of the class.

And being fellow students, that shouldn't be too hard to take.

Fellow alumni, imagine turning an exam into a tea party! Is that cricket?

Find Deetrick Is "Not Guilty"

Youngstown Man Acquitted After Trial In Death Of His Wife

YOUNGSTOWN, O., June 4.—A jury of seven men and five women at 9:30 last night found John W. Deetrick, 31-year-old blonde steel plant metallurgist, "not guilty" of first degree murder in the death of his wife last August 1.

Deetrick received the verdict with the same calm that had characterized his conduct throughout the trial. He straightened up in his chair when the foreman announced the verdict. Then he smiled.

As the jurors filed out of the room, he followed and shook hands with them in the corridor, thanking them for their verdict.

British Opinion Differs On Wedding Of Duke

By DAVID P. SENTNER
International News Service Staff Correspondent

LONDON, June 4.—The unrelenting opposition of British officialdom to the marriage of the Duke and Duchess of Windsor came in for some sharp criticism today—and at the same time their religious wedding ceremony was branded a "pretended solemnization."

The London Daily Express stated in a caustic editorial:

"There were blue skies and a streaming sun for Edward's marriage day. There were many presents and good wishes from the multitude in England and the empire who have no intention, and perhaps no great prospects, of learning their Christian charity from bishops."

The Church Times, taking an entirely opposite view of the whole matter, flung the epithet "pretended solemnization" at the ceremony conducted by the Rev. R. Anderson Jardine at the Chateau De Cande.

Prepare Hot Reception

Meanwhile, church authorities prepared a hot reception for the little Darlington vicar when he returns to explain just why he volunteered to perform a religious wedding for the duke and duchess, in defiance of the wishes of all high Church of England dignataries, from the Archbishop of Canterbury down.

The Church Times editorial referred to Jardine's conduct as the "irresponsible action of an English clergyman who volunteered to solemnize the marriage of the Duke of Windsor and Mrs. Warfield.

"Within an hour or so of his intentions being disclosed, the Bishops of London and Fulham did everything possible to dissociate the church from the proceedings.

"There is no process of law by which a clergyman wandering abroad may be prevented from saying prayers in a private house at the request of his host. That, of course, is all the pretended solemnization with the rites of the church amounted to."

Defends Duke

But, joining the chorus in defense of the duke, Ben Tillett, veteran British trade union leader, wired him:

"All good wishes for a happy 'comradeship.'"

The London Daily Mirror protested strongly against the opposition of government and church to the duke's marriage. It carried an editorial stating:

"We are bound to say that it was the fault of certain Anglican ecclesiastics who appear determined to make themselves disliked by a parade of unnecessary aloofness—indicating, we gather, disapproval about which nobody but themselves cares a new half-penny.

"There it is—or there it was—there we leave it; hoping only the starchy remarks won't follow the duke into his Carinthian retreat and that he may be allowed the peace and privacy he probably desires."

Nanking, China, has a population of 1,000,000, compared with 350,000 in 1927.

Final proof of Recovery: "It's so hard to find good servants."

AROUND CITY HALL

When council convened yesterday formal approval was given to contracts between the city and firms for the purchase of materials for paving streets here this summer.

Council has sent to the printer a bill which provides for the curbing and paving of Richelieu avenue between East Main street and Erie avenue.

Chief of city detectives Ray Showalter and State police under the supervision of Earl Denton have completed the fingerprinting of 1,301 students at Senior high. Their cards will be forwarded, one copy to the State police personal identification bureau at Harrisburg and another to the personal identification department, department of justice, Washington. No cards will be filed among the fingerprints kept of criminals. Students of other public schools will be fingerprinted next fall, it has been reported. It is not compulsory that anyone be fingerprinted, Showalter stated. The main object is for the purpose of furnishing means of identification in case of amnesia, accident or abduction.

Indications are that parking meters here will become a reality within the near future, council having passed an ordinance providing for the placing of meters in various streets and for the purchase of the meters. Yesterday salesmen of five firms demonstrated their wares and according to the merits of the meter explained the salesman naturally boomed his own the best adapted for the needs of New Castle. They were of different sizes and construction, all lauded as being able to withstand weather conditions not likely to become disarranged and a cure for the parking problems. One of the types demonstrated can be used for nickle parking or dime parking, he declared. Another type is so arranged it allows a five minutes grace while others show the number of minutes overtime a car has been parked. On practically all of them is a gadget that record the numbers of nickels deposited and most are said to be thief-proof, unless, of course, one carries the "head" or top away and he cannot do this without considerable difficulty. Another type produces a receipt whenever a nickle is deposited. Some begin operating as soon as a nickle is deposited in the slot while others must be wound before the machine begins clicking. Practically all of the salesmen said that providing they received the order for the possibly 700 meters installation could be started within the next two weeks. The salesmen were a unit in describing the parking evil cure that meters have effected.

Council has purchased a 1937 Chevrolet truck for city purposes at a net price of $450. The truck will be used by the streets department. The city realized a $40.00, trade-in value on an old car, council stated.

Anti-Injunction Bill Is Signed

(International News Service)

HARRISBURG, June 4.—With a stroke of his pen, Gov. George H. Earle today had tied the hands of the commonwealth's courts in issuing injunctions against organized labor during "peaceful" strikes.

Sponsored by Sen. John Dent, D., Westmoreland, the anti-injunction bill was hailed by organized labor as a long-sought victory in the 132nd legislature.

"If human wit can devise a puzzle" says an expert "human wit can solve it." All right; what about our silver policy?

Alabama Boosts Native Actress

Tallulah Bankhead Is Boosted By Southern State For Lead In Southern Play

FROHMAN EATS ONE MEAL A DAY

By O. O. McINTYRE

NEW YORK, June 4.—Thoughts while strolling: Add derbyists—Major Bowes and Conde Nast. Nothing stirs wanderlust like a liner nosing out to open sea. Reddest of the red-haired orchestra leaders: Richard Himber. For a smooth public speaker, I'll take Albert Edward Wiggam.

O. O. McIntyre

Rhyme: For a swift dancing caper, no one is topping Paul Draper. Otto Soglow is the same size and shape of the King he draws. Never knew anyone who didn't like Grantland Rice. Ogden Nash still looks the collegiate freshman and Roy Howard continues to turn in those shirt and tie combinations.

Any magazine would top a million for the Duke of Windsor's thoughts. Bushy haired boys: Arnold Genthe, Will Irwin, J. P. McEvoy, and Jay C. Flippen. The midget mustache Herb Roth features, the big stiff. Comics have to step some to be funnier than W. C. Fields on the radio. Or anywhere else.

Tempus fugiting note: F. Scott Fitzgerald thatching grey at the temples. Famous walks: Hope Williams, Otis Skinner, Dolores, Mrs. Fiske, Jack Dempsey and Chaplin. Connecticut neighbors: Gene Tunney and Heywood Broun. Voices alike: Nellie Revell and Fibber McGee's Molly.

Handsome scribblers: John McClain and Joe Bryan III. America's highest priced society reporter, Maury Paul in his Rolls. Wonder if Tobie Summer knows Obie Winter? Ambition: To have James Melton's voice and join the boys on the court house steps in "Sweet Adeline!"

The entire state of Alabama is going to town for its favorite theatrical daughter, the glamorous Tallulah Bankhead, as a selection for the "Scarlett O'Hara" role in "Gone With the Wind." Editorials are being written and public meetings are being held to further the plea. Alabamians feel the interpreter of Scarlett must be a brilliant, vivacious dashing personality. "Tallu" is all that, with a hefty plus. She should be of the South Southy and she is that. Also the actress is the daughter of an eminent Southern family, the grand-daughter of a Confederate captain, and has the proper accent. Too, there is a growing demand for Miriam Hopkins, another Southern daughter.

Daniel Frohman, who will be 87 this August, has eaten but one meal a day for years. His method is simple. He eats the meal, and a big one, when he is hungry. It may be at 9 o'clock in the morning, 3 in the afternoon or 11 at night. He believes that too many people allow their appetites to be guided by the hour. That is: "Well, it is 1 o'clock and I must go out to lunch." Frohman's only diversion is bridge, and he plays a first class game.

Jack Baragwanath, the mining engineer, who has been known chiefly among the cognescenti as Neysa McMein's husband is shucking off that more or less cloistered role. Recently he authored a book on prospecting to show that he has been around and seen a few things in queer corners of the world. Then he tried his hand at painting, and they say that one or two of his nudes put September Morn smack back in the horse and buggy era. Now comes news he has authored a play that is brimming with vim and vinegar. And if it gets by the censor will make "The Woman" and a few other eye-poppers appear tame indeed.

In the Ghetto at least the canopied carriage, horse drawn, has survived. There are two or three that appear in crowded centers on Sunday morning in side streets off Grand with drivers in faded uniforms and shabby high hats. They are filled with denizens who get a ten-block ride for 25 cents. For many tired tenement housewives and mothers this relaxation is the only surcease from the eternal hubbub.

A summer delicacy on Delancey street, too, is parboiled watermelon seeds, heavily salted. They are sold from doorways for a penny a small poke. The salty confection is a great thirst-riser for celery beer, the favorite brew of the lower East Side. John Drew used to send down to Delancey for dried melon seeds, using them as tid-bits with cocktails.

Many of us ex-trick bicycle riders—see L. A. W. report of Gallia county meet for July 1900—are gladdened by a revival of the art. Three have been featured in cabaret floor shows this winter. Then, of course, there is Joe Jackson's comedy trick act which goes on and on as a headliner in variety halls all over the world. The newest of the bike tricks is a one-hand stand on the handle bars. Then there is Boy Foy on one wheel who appears in the Rainbow Room and at Music Hall.

The climax of my trick bicycling was to ride, after a running start, with one foot on the saddle and the other on the handle-bars, arms folded. Was I the one! I was at least until the fatal day the front tire contacted a discarded watermelon rind. They carried me, feet up, on a shutter, home to grandma with a stove-up neck, a twisted sacroiliium and two dangling front teeth.

APIARY INSPECTION BOOK IS ISSUED

(International News Service)

HARRISBURG, June 4—Pennsylvania has more bee colonies than any other state. There are 30,000 bee-keepers and 195,000 colonies of bees in this state. While these bees annually produce 1,750,000 pounds of honey worth $300,000 their greatest value is as pollinizers of fruit and other blossoms.

An illustrated bulletin issued today by the Pennsylvania Department of Agriculture contains information for beekeepers, a copy of the State Bee Law, state regulations and instructions for the annual State bee inspection.

Hollywood Shocked By "Dance" Scandal

(International News Service)

HOLLYWOOD, June 4.—Hollywood was shaken today by one of the most spectacular scandals since it became the world's film capital—charges of a mass orgy involving 100 beautiful dancers.

The event was staged in a circus tent on an isolated ranch by motion picture leaders during a convention, according to charges being investigated by District Attorney Buron Fitts.

Champagne, more than 100 cases of it, literally flowed like water during the Bacchanalian revel, which began when the dancers arrived to be greeted with whoops of joy by the waiting film notables, it was charged.

Dancer Outraged.

Patricia Douglas, 19, one of the dancers, who asserted she was outraged at the party, was supported today by two other comely participants, who came forward with stories of being subjected to violent treatment.

Men high in the film world have been named as active or passive participants in the party, according to Eugene Williams, chief investigator for the district attorney, who said evidence was being gathered in preparation for possible grand jury action.

Notables Attend.

Williams said scores of other notables who attended the sales convention, many of them from all parts of the United States, might be involved before the investigation is completed.

Dorothy Kritser, dark-eyed young aunt of Miss Douglas, and Ginger Wyatt, another film extra at the party, already have given statements supporting the charges, Williams said.

Miss Douglas said she received a call for work through the studio casting office some weeks ago and was instructed to dress at a costumers either as a cowgirl or a dance hall girl of the old west type.

Taken To Ranch.

At the studio she and the others were loaded into buses and transported to the ranch, she said. Her story continued:

There they were escorted inside a huge tent and saw scores of tables at which the delegates were seated. On each table were bottles of champagne and liquor.

The delegates quickly singled out the girls and escorted them to the tables where the drinking began.

The dancers were surprised to learn they were not expected to do anything but "entertain" the men.

Was Molested.

Miss Douglas named her volunteer escort as an official of a Hollywood studio. His name was not divulged pending completion of the investigation.

"I objected repeatedly to his attentions," she said, "but finally I did take one drink of liquor. It made me ill and I went outside to get some air. He followed me and put me in an open car.

"When I tried to fight him off he hit me and overpowered me."

Two Of Chrysler Plants Closed

(International News Service)

DETROIT, June 4.—Two plants of the Chrysler Motor Car corporation were closed today because of a strike.

A total of 11,000 employes were affected.

Herman L. Weckler, Chrysler attorney, said several hundred workers in the Jefferson avenue plant had staged a sit-down strike, and this forced closing down of the Kercheval Body plant across the street.

All employes in the two plants were sent home. The strikers, who had quit work demanding dismissal of non-union workers, left with the other employes.

¼ cup lukewarm water
1 teaspoon sugar
⅓ cup Spry
2 teaspoons salt
2 tablespoons sugar
1 cup scalded milk
¾ cup water
4 cups sifted all-purpose flour

Crumble yeast into small bowl. Add lukewarm water and sugar and set in warm place until light and spongy (about 15 minutes). Combine Spry, salt and sugar in large bowl and add scalded milk and water. Stir until Spry is melted and cool until lukewarm. Add yeast mixture and mix. Add flour gradually, mixing thoroughly. Cover and let rise in warm place for 1 hour, or until light and spongy. Stir down and let rise again until very light (about ½ hour). Drop dough from spoon into muffin pans greased with Spry. Let rise in warm place until double in bulk (about 15 minutes). Bake in very hot oven (450° F.) 15 minutes. Makes 2 dozen. Notice how *extra* light and tender these rolls are, made with Spry! How beautifully they brown, too.

After putting the first dozen rolls into the muffin pans, stir the dough down and let rise while first rolls are baking.

Reilly Defense Being Presented

Uniontown "Third Degree" Trial Still In Progress In Court At Pittsburgh

(International News Service)

PITTSBURGH, June 4.—Judge William H. McNaugher's courtroom was transformed into a laboratory today as the defense sought to tear down the wall of technical testimony by which the commonwealth seeks a first degree murder verdict against District Attorney James A. Reilly of Fayette county.

Dr. Herbert L. Lund, the Uniontown pathologist, who struck telling blows for the commonwealth at the first two "third degree" trails arising from the death of Frank C. Monaghan and had testified also at Reilly's trial took the stand for the defense and sought to refute the damaging prosecution testimony of F. C. Buckmaster, Pittsburgh chemist.

With the assistance of two technicians, Dr. Lund set up his laboratory near a window and by demonstrations attempted to convince the jury that Buckmaster's tests which showed that Monaghan was so savagely attacked his blood was spattered over the walls of the Bertillon room were not reliable. Buckmaster had testified he found scores of blood spots of the same type as Monaghan's on the walls. Dr. Lund asserted the tests used by Dr. Buckmaster would have destroyed the blood cells themselves and made such comparisons impossible.

The jury came down from the box in pairs to peer through the microscopes and examine the slides as Dr. Lund prepared them.

Joseph's Readiness For Service

"Brass Tacks" On The Sunday School Lesson

The Golden Text

Proverbs 22:29—"Seest thou a man diligent in his business? he shall stand before kings."

By DR. ALVIN E. BELL

The International Uniform Lesson on the above topic for June 6 is Genesis, chapters 37, 39, 40 and 41, especially 41:33-44, the Golden Text being Proverbs 22:29, "Seest thou a man diligent in his business? he shall stand before kings.")

JOSEPH IS the most Christ-like character of the Old Testament, both were beloved sons; both were hated of their brethren; both were murderously conspired against by their brethren; both suffered wrongfully and were greatly humiliated and then highly exalted; both forgave their brethren their sins and poured out blessings upon them in return.

The Unspoiled Sun

That Joseph was ready to serve when God's time came to use him was due in large measure to the fact that Joseph was removed from the pampering influence of his father. Jacob should have remembered how his own father, Isaac had favored Esau over himself and therefore, should have resolved never to show such partiality among his own children. Instead we read "Now Israel loved Joseph more than all his children because he was the son of his old age; and he made him a coat of many colors. And when his brethren saw that their father loved him more than all his brethren, they hated him, and could not speak peaceably unto him." Poor Joseph was in a bad spot between his father's ordinate pampering and his brother's resultant jealousy.

Joseph In Egypt

After Joseph's brethren had sold their 17-year old brother to a caravan of Ishmaelites enroute to Egypt's slave market they planned a cruel deceit upon their aged father to induce him to conclude that Joseph had been killed by some wild animal: "And he knew it and said It is my son's coat; an evil beast hath devoured him: Joseph is without doubt rent in pieces. And Jacob rent his clothes, and put sackcloth upon his loins, and mourned for his son many days.' Thus by the deceit of his own sons was Jacob repaid for his deceiving of his father Isaac.

In Egypt Joseph became the slave of Potiphar an officer of Pharoah. Far from succumbing to his degrading environment, though away from home and kindred, Joseph remained true to the ideals implanted in him by his home and religion. His reply to the seductive temptation of Potiphar's wife is unequaled as an example to those who "would be pure for the sake of those who care." "How can I do this great wickedness, and sin against God?" He went to prison for it, "but the Lord was with Joseph, and showed him mercy and gave him favor in the sight of the keeper of the prison."

The Dreamer Interprets Dreams

In prison Joseph achieved a reputation as an interpreter of dreams. So when Pharaoh was troubled over his strange dream of seven lean cattle devouring the seven fat cattle, and the seven thin ears of corn devouring the seven good ears, Joseph was sent for to interpret the king's dream. "It is not in me; God shall give Pharoah an answer of peace," said the faithful Jew, now a young man of 30 years. Thus he gave God credit for the forecasting of the seven years of prosperity and seven years of depression about to befall Egypt, and his plan for the conservation of the surplus of the years of plenty to provide for the failure of the lean years to follow. Joseph's service to the nation was rewarded with promotion, as a result of which Joseph later was able to save his father and the brethren who sold him into slavery.

FARM FATALITIES ARE REPORTED

HARRISBURG, June 4.—Farm accidents instantly killed 41 persons and seriously injured 53 others during the last 12 months in Pennsylvania, according to a survey made by J. Hansell French, secretary of agriculture.

A year ago Secretary French issued a public statement urging farmers to observe rules of safety. At that time he inaugurated the first survey intended to arrive at the facts of farm accidents. Similar records will be collected during the next calendar year.

The total of 41 accidents which resulted in instant death is believed to be reasonably complete. Every county was checked. How many of the 53 persons seriously injured in farm accidents who died subsequently of those injuries is not known, because that information was not supplied by the sources employed.

Correct this sentence: "They paid him a thousand dollars to endorse their pills," said the man, "but I don't believe he would sell his opinion on public questions."

Seek To Remove Ban On Income Tax Publicity

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, June 4.—Administration demands for relaxing the ban on income tax publicity today threw new ostacles into plans for creation of a joint senate-house committee to investigate income tax evasion by wealthy persons.

The issue, together with treasury insistence upon a provision under which the joint committee could give treasury employes 'blank check' authority to assume duties of the congressional body, blocked until next week action in the house on the resolution creating the committee.

First conferences among house leaders having failed to produce an agreement, further efforts were made today to harmonize differences between the powerful rules committee, leaders on the ways and means committee and the administration.

Treasury officials, it was stated, demanded that the house restore a section eliminated by the rules committee. This section gave the joint committee authority to delegate to treasury employes the power to hold hearings, subpoena witnesses and make public names of persons involved in the tax inquiry together with their income tax returns.

Chairman Doughton (R) of North Carolina, of the ways and means committee, demanded restoration of another provision, eliminated by the rules committee, which deprived the joint committee or its agents of simply making public income tax returns of persons involved in the investigation.

Chairman O'Connor (D) of New York, of the rules committee, which unanimously voted against the publicity and "blank check" provisions, called his committee into session to consider reversal of its position.

Student Hurt In Auto Accident

New Castle High School Group In Car In Mishap Near Slippery Rock

While enroute to their homes in New Castle, a carload of students from the Senior high school, met with an accident on the road between Slippery Rock and Harlansburg, a short distance outside of Slippery Rock, Thursday afternoon.

The machine of students, which was driven by James Eckelberger, 422 East Sheridan avenue, attempted to pass a car driven by a man who gave his name as McConnell. As the Eckelberger machine pulled abreast the other car, McConnell turned his car sharply to the left to enter a driveway. In so doing, the Eckelberger machine was forced to the side of the road and into an earth embankment.

The impact turned the student's car over on its side. LaVerne Evans, 315 Boyles avenue, who was a passenger in the car was caught as she attempted to escape from the machine and received external injuries.

Miss Evans was taken to a nearby doctor's office where she was treated for her injuries, and it was found her leg and foot had been wrenched but her condition was not serious.

Two other passengers in the automobile escaped without injury, other than bruises. The McConnell machine was only slightly damaged as Eckelberger swerved away from it to avoid hitting the machine. The group was returning from the Class Day picnic which was held along the Slippery Rock creek.

Lawrence County Farms And Farmers

By H. R. McCulloch, County Agent

CAREFULLY FERTILIZE THE VEGETABLE GARDEN

Each year many home gardeners have disastrous results due to fertilizer burn on seeds and plants. Some timely reminders regarding the time, amount, and method of application of complete commercial fertilizers should be helpful.

In small gardens where space is at a premium and the rows are spaced closely together, broadcast the complete fertilizer at the rate of 20 to 30 pounds per 1,000 square feet and work it deeply into the soil in preparing the seedbed.

In larger gardens where the rows are farther apart, 30 to 36 inches, some of the fertilizer may be broadcast as stated above and some applied along the row. In row fertilization, an excellent way is to apply the fertilizer on each side several inches from the row and several inches below the level of the seed. Soil moisture or a rain will remove the caustic or burning effect of ordinary fertilizers placed near the row by the time the seed germinates and the roots penetrate into the fertilized area.

Never place fresh fertilizer in liberal amounts directly in the row with the seed or in contact with the roots of newly transplanted plants. If fertilizer is placed directly in the row, apply it several days in advance of seeding and mix it well with the soil.

It is important to work a complete fertilizer, such as 4-8-4, 5-10-5, 4-8-7, or 4-12-4, deeply into the soil. Later light applications of nitrogen, such as nitrate of soda, sulphate of ammonia, or chicken manure, may be applied as a side-dressing along the row or around the plant and worked into the soil.

PLANT EARLY AND FEED STRAWBERRIES PROPERLY

Experiments have shown that early planting and adequate fertilization are very important in stimulating early and vigorous growth of runner plants in the strawberry. It has been found that the early runners are several times as productive as the late ones.

Nitrogenous fertilizers are most effective in stimulating vigorous runner development. Nitrate of soda and sulphate of ammonia are very generally used as a side-dressing after the plants are set. Two applications are recommended, the first to be put on about 2 to 4 weeks after planting or about the time that new growth is beginning. This should be applied in about a 10 or 12-inch circle around each plant, and at the rate of about 125 to 150 pounds an acre. Care must be taken that none of the fertilizer falls on the plant, as this would cause severe burning. It is well to make the application when leaves are dry, so that any fertilizer which accidentally falls on the plant may be readily brushed off.

The second application should go on about the first week of August, just before the fruit buds for the following season are formed. About 150 pounds per acre should be applied at this time. If none was applied in the spring, this summer application should be heavier, about 200 to 250 pounds an acre. Fertilizer at this season increases flower bud formation and set of fruit the following spring.

Of course, these recommendations should be varied somewhat in accordance with the fertility of the soil. On very fertile soils it might be found that no benefit was derived from nitrogen. On very poor soils the amounts might be slightly increased. However, the amounts suggested above will be approximately correct for the majority of Pennsylvania growers.

COW TESTING RECORDS HELP DAIRY FARMERS

Cow testing associations help dairy farmers to make more money from their dairy herds through discovering and removing serious causes of loss.

These associations provide accurate records of the amount of milk and butterfat produced and the amount of feed consumed by each cow. With this information, it is easy to discover losing cows. Weeding out such cows will at once increase the profits from the herd.

Records help in other ways, too. The breeding program can thereby be improved. Having production records on all cows in the herd makes it possible to compare the records of dams and daughters. If the breeding program is good the daughters should be better producers than their dams at the same age. Records give a measure of the comparative value of each sire. Often the daughters of one sire will be much better producers than the daughters of another sire. The blood of the better sire should be continued in the herd through raising heifer calves from his daughters. A very careful selection should be made of each succeeding sire.

Further advantages are that records provide a measure of the effect of any change in feeding and management. They also tell how much grain each cow can use at a profit. Records, if good, increase the money value of individual animals and help to build a reputation for the entire herd.

Dairying is a leading farm business of Lawrence county, and it is important that the industry be developed and continued on a high plane of efficiency. Record-keeping is the first step in a constructive dairy herd improvement program.

There is one Cow Testing Association operating in Lawrence county. Dairymen who are interested in joing this association or who would like to co-operate in organizing a new association should get in touch with their Agricultural Extension Association.

TIME NOW TO THINK OF SUMMER CANNING

Many women are now thinking seriously about having their gardens provide plenty of vegetables and fruits, not only for the summer months but also enough to can for use next winter, says Miss Mary Vogle, home economics extension representative.

Nothing is quite so satisfying to the woman fair exhibitor as a premium on her canned goods. With the keen competition that now exists, most women are anxious to know what goes into the judging of canned goods.

Miss Vogle says most canned fruits and vegetables are judged for quality, general appearance, and package.

A clear liquid with no sediment, strings or cloudiness is considered under quality. Besides this the food canned should be free from spots and mushiness.

For the best general appearance, fruits and vegetables should be uniform in size and shape and have a natural color. A neat arrangement in the jar improves the general appearance but fancy designs in arrangement are a waste of time and energy and do not increase the score of the canned food.

Under package, the appearance and cleanliness of the jar itself, the lid and the rubber are important. Besides this, the shape and neatness of the label is considered. Many women spend hours making fancy labels for their jars which only detract from their exhibit.

As would be expected the quality of any canned goods is most important and ranks highest in judging. General appearance ranks second, and apakage third. With 100 being the perfect score it often is divided this way, 50 for quality, 40 for general appearance, and 10 for package.

Now is the time to plan for premium jars, and Miss Vogle urges that those points be considered when canning so that this may be a banner blue ribbon year for canned fruits and vegetables.

FARMERS TO ATTEND COLLEGE FIELD DAY

Several Lawrence county farm folks are planning to attend the annual Farmers' Field Day at the Pennsylvania State college, Thursday, June 10. On this day the School of Agriculture and Experiment Station has open house and the work done for the farmers of the state is revealed in experiments, demonstrations, exhibits and talks.

Every line of activity will be included in the program. Interesting and valuable contributions will be made by the agricultural engineers, agronomists, animal husbandmen, botanists, dairymen, entomologists, foresters, fruit specialists, ornamental horticulturists, poultrymen, rural educators, vegetable gardeners, plant breeders and home economists.

Among the special features of the day there will be moving pictures, free bus rides over the college farms and campus all day, a farmers' band concert at noon, and the fourth annual state-wide rural chorus contest in the afternoon.

DITCHING DEMONSTRATIONS

The shooting of open ditch for drainage purposes by the use of dynamite will be demonstrated on two farms in Lawrence county next week.

The first of these demonstrations will be held at the farm of J. A. Young on the Lakewood-Neshannock Falls road in Hickory township, Tuesday afternoon, June 8, at 2:30 o'clock.

The second demonstration will be on the farm of L. B. Offutt, Plain Grove township, Wednesday morning, June 9, at 10:00 o'clock.

Open ditches are recommended in a ditching plan only for the carrying of surface water or for the drainage of swamp land.

The use of dynamite in shooting these ditches is inexpensive and practical. Anyone interested in seeing these demonstrations is invited to attend.

CONCORD SCHOOL HOUSE

Do you know that once each year, on July 4, the bell in the belfry of the Concord School House, 6309 Germantown road, Philadelphia, is tolled one stroke for each year of American independence?

This unique annual event takes place at 5 o'clock in the morning. Concord School House was built in 1775 to accommodate children of Upper Germantown, who found it inconvenient to attend in the winter seasons the lower school known as the Academy. For more than 100 years it was used for school purposes. The Charter Oak Library now occupies the upper story. It was here that the Junior Order United American Mechanics was organized in 1853. During the battle of Germantown severe fighting took place at the rear of this building.

Gangster Gets Salty Sentence

Jewelry Store Robber Given 10 To 25 Years By Ohio Judge

(International News Service)

LIMA, O., June 4.—Sentenced to 10 to 25 years in Ohio penitentiary, Charles Gieseking, 37, Al Brady gangster, was on his way to prison Thursday in custody of a heavily armed group of sheriff's deputies.

Gieseking pleaded guilty to a charge of armed robbery before Judge Emmett Everett on Thursday morning in connection with the $10,000 daylight holdup of a jewelry store here. A plea of not guilty was entered on a charge of shooting with intent to kill.

Authorities charged Gieseking shot Patrolman William Swaney who attempted to prevent the holdup. Prosecutor Robert Jones said Gieseking will be brought here to face trial on the shooting charge when other members of the Brady gang are apprehended.

Gieseking, alleged trigger man of the notorious band of Indiana robbers and killers, was returned here Wednesday night from Indiana by Police Chief Ward Taylor. Meanwhile state police and county officers were searching for other members of the gang reported seen in western Ohio.

RAIN BOON TO GROWING TREES

HARRISBURG, June 4. — The spring of 1937 was one of the most favorable seasons for planting trees in recent years, Secretary James F. Bogardus of the Department of Forests and Waters announced today.

The Forests and Waters' head attributed the excellent results attained to the abundant rains of the past two monhs.

On Court House Hill

REALTY TRANSFERS

Bertha M. Shaw to Frank J. Patterson, third ward, $1413.75.

D. Fuller Stewart to Charles Neal, New Wilmington, $1.

John Zank ux to John Zank, fourth ward, $1.

Thomas McMullen to Ralph Veon, Enon Valley, $2000.

Elias H. Rea by attorney in fact to Boleslaw Nos, Neshannock township, $300.

Something of a question has come up in the registration of citizens of the boros and townships which will be done June 8, July 6 and August 10. The question is "can a voter register under any party designation other than that on the ballot of Pennsylvania?"

An informal opinion, more of a personal opinion, of James Wallace, chief of the bureau of elections in Harrisburg, is that a voter can register only as a Republican, a Democrat, a Royal Oak or non-partisan.

Several attorneys of Lawrence county are of the opinion that a voter is entitled to register as he pleases. Under the law such parties as the Prohibitionist, Socialist, Communist and others are denied placing on the ballot because they did not poll 5 per cent of the total vote cast last November.

In spite of this there are many voters who desire to show their affiliation with certain parties and the attorneys questioned say that the voter can register as he pleases, but will not get a vote in the primary unless he registers as a member of one of the three parties on the ballot.

In order to get a ruling on it Thomas C. Edmunds, chief clerk of the registration commission, has turned the matter over to the county solicitor, Attorney William McElwee.

The registrars of the county met in the court house Thursday night when they received their instructions on how to register the rural voters on June 8, July 6 and August 10.

This advertisement is not paid for. "Wanted: Office space for three county commissioners. Must have four walls, at least one window and three chairs and a desk."

The county commissioners are without an office at the present time. The cubicle they had been using has been added to the space of the registration office and the commissioners are sitting down now wherever they can find a chair.

A number of valuable suggestions have been made. One is that the commissioners get a large A-wall tent and put it up on the court house lawn. Inside could be placed three pup tents for private use. Another suggestion is that they put a mezzanine on the court house porch and get up to it by a ladder. This would prevent a lot of useless calls.

Another suggestion is that they use the belfry which would be quiet and dusty. Still other suggestions are a wing on the Court street side, a wing on the other side of the building and a wing on the front of the building.

The interior of the registration office is undergoing some housecleaning. The paper has been taken from the walls, some renovation is in order and in a short time the office will be in good shape.

In an effort to determine whether or not Anthony Naples, ten-year-old school boy, who shot Robert Harris, a companion, is mentally capable of distinguishing right from wrong, Juvenile Officer Jack M. Dunlap took him to Polk where he was examined by Dr. Harvey Watkins, who is a recognized alienist.

No report has been received from Dr. Watkins as yet. Should he decide that the boy is mentally deficient the probabilities are he would be placed in an institution. Should he be declared sane he will be tried for murder in the criminal court starting June 14.

Must Tend Garden To Secure Wife

Any Love-Sick Seminole Must Tend To His Garden To Secure Bride

(International News Service)

MIAMI, Fla., June 4.—If you can't grow a garden, you can't have a Seminole for a June bride!

Unless you're a Seminole you probably couldn't anyway, but gardening ability is one of the prime requisites if the proposition sounds interesting. In consequence youthful Seminole swains in the villages near Miami are busy proving to the tribe's elders that they really will be able to care for little Susie Laughing Water in the style to which she is accustomed, preparatory to tribal marriage ceremonies to be held in June during the age-old Green Corn Court.

And what's more, youthful husbands must put their theoretical knowledge of gardening to practical results within a year of marriage or they will be hailed before the Green Corn Court and made liable to serious punishment. No dependence upon relatives is allowed in this stern society.

In other ways, too, these "savage" people are far ahead of their more civilized white neighbors. Scorning lightly undertaken unions which too frequently end up in Reno or other divorce centers, the Seminoles regard their marital vows highly and marry for "keeps". The gay philanderer of song and story is virtually unknown for a simple but adequate reason. Infidelity is punished by lopping off the offender's ears, a process very discouraging to would-be Lotharios.

With infidelity thus competently cared for, the Seminoles also practice another theory that they believe has placed their marital relationships on a plane approaching perfection. Marriage, they say, should take place between the ages of 17 and 20. However, wedding at too tender an age is regarded in the same light as a marriage contracted late in life.

FORECAST GOOD TOURIST SEASON

HARRISBURG, June 4.—Concrete evidence of a vast influx of travelers during the summer months of 1937 has been given to the Pennsylvania State Publicity Commission in response to a radio talk on the National Farm and Home Hour portraying the advantages the Keystone state offers to vacationists.

The first day's mail brought 518 requests for travel literature from 376 cities and towns in 32 states. Among these requests the District of Columbia, Canada and the Canal Zone were also represented.

"We have assurances from many of those who wrote for literature that they will vacation in Pennsylvania this year," said Secretary of Highways Warren Van Dyke, who is chairman of the commission.

Decision Today On Fight Case

Long Awaited Decision By Appellate Court Will Only Tangle Situation

SUITS AND COUNTER SUITS PLANNED

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, June 4.—The appellate court in Philadelphia is expected to hand down today its long awaited decision on Madison Square Garden's appeal to enjoin Champion James J. Braddock from fighting Joe Louis in Chicago June 22.

On that decision may rest not only the fate of the Chicago fight but perhaps the future of boxing.

The court could clarify the muddled heavyweight situation at once by denying the Garden's appeal and permitting the Chicago fight to be held as scheduled.

Terrible Muddle

But should the court uphold the Garden, the situation would be more scrambled than ever and another round of litigation would be in prospect.

However, regardless of the decision, all hands concern d are preparing today for suit and countersuit.

Max Schmeling—the man who was weighed in for and then waived out of his title shot yesterday—is conferring with his lawyers to find out if he has a suit against anybody and, if so, against whom and for how much.

Max also will ask his lawyers today if he is not entitled to the full $5,000 Braddock forfeit which the New York Boxing Commission so blithely ordered split between him and the Garden when Braddock failed to show up for his fight last night. The commission also ordered Braddock and 'is manager, Joe Gould, suspended.

Braddock Will Finish Training For Louis Bout

(International News Service)

GRAND BEACH, Mich., June 4.—James J. Braddock announced today that he is about ready to wind up heavy training for his title bout with Joe Louis in Chicago on June 22.

The heavyweight champion said he would box six rounds today, eight on Saturday, ten on Sunday and then begin tapering off in shorter workouts. The reason is his advanced physical condition and a fear of going stale.

Louis Punches Bag

Kenosha, Wis., June 4.—Joe Louis planned another workout in the ring today after confining his training to roadwork and a few sessions on the light and heavy bags yesterday.

Conn-Yarosz Bout June 30

(International News Service)

PITTSBURGH, June 4.—The Billy Conn-Teddy Yarosz battle for the state middleweight championship has been fixed for the night of June 30 at Forbes Field here, Elwood Rigby announced today.

After much bickering between the managers and several promoters, Ray Foutts, the former middleweight champ's pilot, signed the contract. Conn had signed earlier in the week.

Dean Will Not Apologize To Frick Publicly

Cannot Play With Cardinals Until He Does Is Attitude Of President Frick

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, June 4.—Up to a reasonably late hour last night, J. H. (Delerium) Dean, the one man glee club, had vouchsafed no further word in his controversy with the authorities of baseball, beyond a slight threat to sue the National League and President Ford Frick—But only in the amount of $250,000, so it couldn't have really been preying on his mind. He said this action was contemplated "for depriving me of a living," the deprivation in question having to do with the great man's continued refusal yesterday to sign a blanket repudiation of statements attributed to him and Frick's refusal to lift the suspension.

Called Frick Crooked

Manager Frank Frisch and Secretary Clarence Lloyd, of the St. Louis club, "worked on" Ole Criss-Cross last night in an attempt to get him to sign, but it was no go. They'll try again this morning and, in the event of failure, they'll attempt the following compromise:

Have Dean go orally on record before Frick and the newspapermen as denying that, among various things he was alleged to have said elsewhere, he ever stated at Belleville, Ill., that "Frick and Umpire Barr were two of the biggest crooks in baseball." His denial before Frick yesterday was in private.

Anyhow, that's the way it ended for the day. Ole Dingbat says as how he didn't say no such thing. Mr. Frick said, put it in writing. Then Ole Offside says "I ain't singnin' nothin'"—and walked out.

Lawrence Indies Trip Mahonings

Score Is 10 To 2 At E. & A. Field Thursday Night, Carik Allows Three Hits

Behind the brilliant three-hit pitching of Johnny Carik, the Lawrence Indies hung a 10 to 2 defeat on the Mahoning A. A. last night at the E. & A. field. A big first inning in which the Indies batted the ball all over the field for eight runs, gave the Cedar street boys the victory.

Carik in addition to pitching a three-hitter, had three hits himself and scored two of the "Red Caps" runs. Carik fanned five of the Seventh Warders. M. Rainey and Mike Orlando did the heaving for Mahoning and allowed the Indies 14 hits.

Mosley, M. Baker, Cardella and John Wilk had the longest hits of the game. The victory elevates the Indies in the first-half pennant fight.

CASE OF LUCK

NELSON, B. C., June 4—Driving a pick into a box of dynamite is an experience Jim Stewart does not want to repeat.

Stewart was at work in a gravel pit, when his pick drove into a hard object. Investigation revealed the case of explosive. The box bore the date of 1910, and apparently had been buried 27 years before by a crew of Great Northern Railway workers.

Stewart would not take a chance on it not exploding the second time.

TALES IN TIDBITS

By BILI BRAUCHER
Central Press Sports Editor

NEW YORK, June 4.—Your guess is as good as the next man's as to what is the matter with Bob Feller's million-dollar pitching arm . . . the big 18-year-old youngster has been sent back to Iowa by the Indians for a rest of perhaps a month or more.

There are two ways of healing a sore arm, baseball men tell me—by pitching it out, or by complete relaxation . . . because of Bob's extreme youth, Manager Steve O'Neill of the Tribe believes the safer course is to let Master Feller sit this one out.

"I was talking last week to Chief Bender, over in Philadelphia," said O'Neill. "He said he used to get a sore arm at the elbow quite often, but after he had worked a couple of innings the soreness would disappear. The Chief was a mature pitcher in those days, though, and I'd hate to see young Feller permanently injure that flipper."

Cy Slapnicka, general manager of the Indians, also is Feller's personal manager, and he concurs in O'Neill's judgment.

What happened to Bob's arm is that he pulled a muscle in his forearm delivering a curve ball at high speed. Up to the time of the injury, in an April game against the Browns in Cleveland, he had been throwing more curves than usual all spring, trying to perfect an effective bender.

The guess is in this corner that he'll be back better than ever after a complete rest. Many curve ball pitchers fall heir to aching elbows, and the soreness works out after a time. Feller is young, however, and must take it easy.

It will be a tremendous load off Feller's nerves for a while, anyway. Wherever he went he met the same question, "How is your arm?" or "What really is the matter with it?" You can imagine how the guy felt after answering this query about 7,219 times.

To the question, "Will he be able to pitch again" this writer is ready to reply in the affirmative. In making such an answer, we're staking a lot on Mother Nature, who has a way of healing youth's scars if given a chance. Oh, yes, Feller will be back.

Have One Game Lead Over Ryantown, Pulaskis And Indies Advancing

The South Side Board of Trade with Dick Witherow turning in his third straight league triumph defeated the K. Pulaski team last night at Glasser Field 7 to 2, to take first place in the City Baseball league.

Witherow allowed the Pulaskis but six scattered hits, and not a run until the sixth and seventh innings. The Traders found the pitching of Steve Badurik for nine safe blows, including a screaming home run drive by Johnny Marshall. Witherow, Fundoots, Glasser and Brysh had extra-base hits. Lewis Wins His Bout From Olin

John Henry Lewis More Firmly Entrenched At Head Of Lightheavy Division

(International News Service)

ST. LOUIS, June 4.—John Henry Lewis today still ruled the light heavyweight division with a firm hand as a result of his stirring eight round technical knockout victory over Bob Olin of New York, the former titleholder, here last night.

The champion never looked to better avantage than he did in stowing away the man from whom he won his crown in the same ring 17 months ago.

Held even until the fourth round, Lewis floored Olin for a seven count with a hard right to the body, and from that point on was well in front.

Olin was badly stung in the seventh, and in the eighth five consecutive rights to the head and body again sent the veteran New Yorker to the canvas. Olin struggled to his feet but was in bad condition, and Referee Walter Heisner stopped the fight.

Lewis weighed 174 and Olin 174¾. The bout drew 12,126 persons and a gate of $23,872.

National League Race Is Close

Pirates, Cubs And Giants Battle For Leadership In National League

BOSTON BEES TRIM PIRATES

By LAWTON CARVER
International News Service Sports Writer

NEW YORK, June 4—That tight National League pennant race threatened today to become so close by nightfall that the Chicago Cubs and New York Giants might be right up there looking at the pace-setting Pittsburgh Pirates.

By a quirk in the schedule, the Giants and Cubs were down for two games today to give either or both a chance to nudge up in case the Pirates run into some more of that sparkling pitching. Through the last two games, it was held the league-leaders to a total of two runs.

Pirates Lose

The Bucs won the series opener by 2 to 0, but faced Lou Fette the right-handed Missourian, yesterday and lost by 6 to 0, Fette being credited with his sixth win of the season against one defeat.

The hard-hitting Pittsburghers were being held to seven hits while the bees went about the business of making nine, including a brace of home runs by Berger.

That defeat cut a half game of the Buc's lead, with the rest of the national leaguers all idling in the rain.

The Cleveland Indians squared their series with the leading New York Yankees in the American by 6 to 2, and simultaneously handed Lefty Vernon Gomez his fourth defeat against six victories. They finally called in Pat Malone to finish Gomez' game after the latter had been lifted for a pinch-hitter.

The Chicago White Sox beat Boston's Red Sox 11 to 4, and moved up into third place ahead of Detroit, which was beaten by Washington 5 to 4.

HERE AND THERE IN SPORTS' LAND

What should prove one of the outstanding attractions of the Western Pennsylvania boxing season will be fought June 30 at Forbes Field, Pittsburgh, between the on-coming Billy Conn and former Middleweight Champion Teddy Yarosz. Conn is a Pittsburgh fighter and Yarosz is from Monaca. Teddy and his two brothers appeared at the police benefit show here last summer.

The senate of Texas at Austin voted yesterday 18 to 13 to repeal the law which four years ago legalized horse race betting. Because the house of representatives had previously approved repeal of the statute, 115 to 21, legalized betting on the ponies apparently was doomed. The bill was identical to that passed by the house but since it bore a senate number it had to return to the lower legislative branch for action. It may come up for vote today.

Alice Marble, United States champion, entered the semi-final round of the St. George's Hill tennis tournament at London by beating Betty Nuthall of England, 6-3 and 6-2.

Sir Abe Bailey's Cecil and James Bank's His Grace ran a dead heat in the Coronation cup event over the full derby route at Epsom Downs yesterday.

Joel Hunt, Los Angeles net ace, beat Bitsy Grant in straight sets yesterday at Atlanta. On the verge of exhaustion, Hunt won, 6-4, 6-4.

Twenty-four of the district's leading boxers will box tonight in the Police Benefit show at Forbes field, Pittsburgh.

Want To Play Off Postponed Games

Manager Charles Scaglione of the South Side Board of Trade baseball team would like to get his postponed games played off as soon as possible in the City Baseball league.

The Traders have postponed and tie games with the Mahoning A. A., K. Pulaski and Colored Elks. All of these games were scheduled at Rosena field. The Traders are willing to play every night next week to get the games played.

Firemen Play At Ryantown

Feature Game In City League Tonight At Ryantown Field

NATURAL RIVALS SET FOR CLASH

Natural rivals years before the City Baseball league was organized, the Sixth Ward Firemen and Ryantown, both members of the league, will clash tonight at the Ryantown field in a postponed league encounter. The game will start at six o'clock.

Manager Joe Ziegler and Bill Gall have selected Wylie Shiek to try and stop the Ryantowns. Manager Joe Samuels and Bub Jones have chosen either VanEman or Coates to try and throttle the Firemen tonight.

In event of good weather there will no doubt, be a banner crowd at the Ryantown field to watch the rivals at work trying to score runs. Both teams are battling hard for the first half crown in the league. Ryantown at present is up on top of the heap, with the Firemen trying to get their engines up there with the Ryantownians.

Morgan Resigns At Greenville High

State Taxation Hits Industries

Secretary Schill Says It is Handicap In Effort To Secure New Industries

ELLWOOD CITY, June 4.—The Chamber of Commerce in its renewed efforts to bring new and progressive industry to Ellwood City has found an obstacle that has hindered them from bringing in a very renowned industry this past week. The obstacle is the high tax in Pennsylvania in comparison to those in other states, Secretary Schill states.

The tax on this plant in Pennsylvania would have been $18.12 on each $1,000 invested as compared with 71 cents in New Jersey $3.48 in Massachusetts and $5.49 in New York, the secretary announces.

Everyone who is engaged in industry knows Schill says that in the past few years state taxes have increased $1.50 to $22.60 for every $1,000 invested. Another concrete example is that of one of our smaller industries here in Ellwood that has been offered absolute release from State Taxes in Delaware. Still another example is that of a large corporation which has plants in both New Jersey and Pennsylvania. In Pennsylvania the tax increased from $1,770.77 in 1933 to $39,798.72 in 1936.

Chamber Secretary Denny Schill stated unless there is a change in our taxation policies in Pennsylvania we will lose a great many more than the 36 industries that already have left the state of Pennsylvania. Schill further stated that the State Legislature cannot afford to ignore the severity of the present taxation policy and the quicker a remedy is devised the better every community will be within the state.

FROM ME TO YOU

By MESEEALL.

It's rather odd to talk about such things at this time of year but it entered the thinking channel and here 'tis . . . some people are always saying "keep up with the times" . . . "be modern" . . . what does all this mean . . . it must mean don't go to sleep . . . keep awake . . . well there's one thing sure you can't keep yourself entirely to yourself and still expect to know much about what is going on . . . we have a friend that keeps bragging about his never reading a book . . . what a lot this friend is missing . . . very few of us personally can travel to a very great extent . . . maybe we can cover the United States, but that is a very small part of this universe . . . there is one way we can do this travelling and that is buy reading books of other people's experiences . . . now this friend that says he has never read a book . . . he is not only missing what is going on today but that which happened hundreds of years ago . . . we should all keep reading . . . what greater satisfaction is there than to say at the close of day . . . well, we learned something new today . . . it's not hard to say that . . . knowledge is all around us . . . it's not like our hat, you can't go down to the store and wear it home . . . it's something that you alone can control and make . . . it's up to you . . . we should learn things by taking advantage of the lessons learned through the mistakes and successes of others . . . the older we get the more we realize this . . . to make life worth living everyone should have dozens of interests . . . something that will keep his mind active at all times . . . otherwise there is something in the makeup of the human organism that gets rusty and old before its time . . . what interesting things you people say.

• • •

What does the farmer think of the Parking Meter? . . . we don't know exactly . . . some are wondering if they will have to pay a nicke everytime they stop to deliver eggs to a store . . . or any other farm article that they bring to town at least once a week . . . one farmer suggested that it would be very nice if when you inserted a nickle a mug of beer or ice cream soda would be served . . . getting something for his money is what he wanted . . . well time will tell and so will the public.

Stock Market Is Irregular

Slight Changes In Prices During Early Hours Of Stock Trading

By LESLIE GOULD
International News Service
Financial Writer

NEW YORK, June 4.—The stock market slipped moderately today after a highly irregular first hour.

Tractions were heaviest, with steels, coppers, oils and motors also easing. Utilities moved irregularly lower. Rails and motor accessories, together with mail orders, resisted the downward tendencies. Earlier, steels and motors had been higher.

The carrier section was relatively steady, although losing most of first hour gains. A few rails dropped behind minus signs.

B. M. T. common and preferred, with losses of more than one and three points, respectively, and I. R. T. on a fractional decline, reached new 1937 lows in the tranction department.

Declines in such leaders as U. S. Steel, Bethlehem, Anaconda and Chrysler were limited to minor fractions.

Bonds were mixed and quiet, with governments steady. Grains were mixed, while cotton lost close to 50 cents a bale.

Court Refuses To Quash Cases

Before Judge James A. Chambers today in court room number one of the Lawrence county court house, Attorney Edwin K. Logan argued a motion to quash information against Marie Jones, Olive Collins, Helen Taylor, Helen Hall and Joan Rodgers charging them with being inmates.

Mr. Logan's argument was that the information did not specify that they were unlawful inmates of a house wherein an illegal act was being consummated and that the informations should be quashed.

District Attorney Mont L. Alley argued that under the common law all that was necessary was to put in relevant facts and that these women were charged with being inmates of bawdy house, the proprietors of which were under arrest.

Judge Chambers refused the motion and the cases will go before the grand jury next week.

STEADFAST

Annie Mae and Lulu, colored, met on the street and Lulu complained that she was hungry, had no clothes, and could not pay the rent.

"Effen you ain't eatin' regular and ain't got no clothes, how come you don't go down to the relief? They gives you sumpin' when you're hungry," advised Annie Mae.

Lulu looked interested. "Where am the relief?"

"It's down at city hall," Annie Mae told her.

"Well, I doan know," said Lulu. "I'se been givin' the Red Cross my trade, and I kinder hates to change."

Prying Loose Death's Jaws

Every Man for Himself—or The Age of Chivalry

Fifteen women, wives and sweethearts of steel strikers, marched up and down before the City Hall in Chicago, with such placards as: "Mayor Kelley: Who Elected You that Your Police Should Kill Five Men?" The photographer snapped this picture as a bystander snatched a placard from one of the pickets, who expressed her resentment with her fists. (Central Press)
